To the Honble. Jno. Beard Esqr.
Presidt. for affairs of the Rt. Honble.
East India Company in Bengall & Govr. of
Fort William &ca. Councill.

Sirs.

Our last to you was The 26th. of Janry. p Ketch Abednigoe coppy which comes inclosed since wch. wee have Recd Yours of ye. 15th & 18th past Month by Mary Smack & Charles & Betty wth. all papers according to List except that of the price of Gold wch. Omission is supplyed in your Postcript in yours of the 15th.

Wee Observe what you write about ye. Dispatch of the Colchester & how yt. by the delayes of Cojah Surhaud she departed without signeing Bills of Loading or carrying his Letters wch, must of Necessity occasion great Confusion in Delivering her Goods in Persia or Bussera by wch. means many disputes will arrive at her returne.

Your husboulhowcom for liberty of Trade has been Long expected & find it is to same Purport of that sent us from Surratt they will Certainly extort money from you before you have the bennifitt of it & then God knows how long you may Enjoy it, For yt. they of Surratt write they expect fresh Troubles upon the First Pyrasy Committed wch. may be Reasonable expected since there is still some of Those Rogues in being.

Wee Perceive you have Laden a good Cargoe for the Wentworth wch. wee wish may arrive in Safety.

These two Vessells bringing up baile goods as before mentioned was no small surprize to us Since wee Did not write to you for any unless you had Returnd us both the Colchester & Phenix when wee Desired your Assistance & for the reason you your selves give you could not Immagine that wee wanted them nor yt. the Loss of ye. Norris was any Advantage in regard to our Investments here whose Stock was to be Invested in Metchlepatam Goods but what has to streighten us for goods here has been the Troubles of the Country & great Investments made by Dutch & French more ꝑticulerly the Former, and we cannot infer any thing less from your sending These Bales but your desire of Investing our stock which is not agreable to wt. orders Recd from ye. Company wch. wee advised in our Former Letters for was ye. Chamber Friggott arrived now from China wee have more then is Suffitient of our owne Bales to Lade her, Tho; at this Time shall not Venture to Dispatch any ship so unseasonable as to Obliege themselves to goe to Mauratius by wch. she would run no small risque so

that were it not for the Approaching Munsoon wee would have Returned you your bales w^ch^. now must lye here to Fill up any Ship Consigned you next year for which you may chance to want Stock or Goods for y^e^. Same.

Wee Recd by neither of these Vessells any Goats or Geese nor doe wee desire you to send any more for whither they are bad when putt on Board or abused in y^e^: Voyage wee Cannot tell but they come in a misserable Condition here & few or none of them lives Long after their comeing hither.

You write that you have sent y^e^: Charles & Betty Sloop to remain w^th^. us but have Omitted to put her in your Invoice the Reason of which wee guess att if she had those good qualifications y^e^. Company expected wee should have writt you for her as they directed us but being Truely Informed that she would neither hite nor hee nor bear Saile nor had any one qualification to render her Servisable to us wee here return her to you again & Thank you for the Favour you intended us.

Wee have Continued the Red Lead on board the Mary Smack & here send you an Account of what wee have supplied the sloops with here & have orderd the Mary to call att Vizagapatam to putt a shoar Some Treasure & Goods & y^e^: Charles & Betty to doe the same att Metchlepatam both which wee hope will arrive you in safety.

Wee have not one Rupee by us nor Allumgeer Pagodaes for y^t^: wee are very low in Cash & owe a great deall of money to y^e^. Merchants att Fort S^t^. David w^ch^. wee shall speedily pay off by y^e^. sale of our Silver nor have wee any Copper but what was long since disposed of to Merchants here, the price of which you never advised us.

Wee wrote you in our last w^t^. Saltpetre was remaining here & when the Chamber Friggott arrives shall dispatch her to you to be Loaden with Saltpetre & returned to us in August intending that she shall be the Sep^r^. Ship when she can goe directly to the Cape to Join the Dutch ships there bound for Europe.

After y^e^. Perusall of M^r^. Trenchfields Accounts now sent us wee shall do what wee can to settle itt with his Trustees w^ch^. had been much better had it been done many Years Agoe.

John Baily whom you sent on the Smack is under Armes here who shall serve out his time agreed with y^e^. Company, tis said he occasioned no small disturbance on Board the Wentworth for which wee will have a watchfull Eye over him here.

Herewith comes a List of Freight goods sent on These Sloops.

The 28^th^ Ins^t^: wee Recd Letters from Metchlepatam adviseing of an herohick action of M^r^. Jn^o^. Pitts y^e^. new Companys Consull, upon the Presid^ts^. first comeing hither, he brought Instructions from y^e^. Company to use all means to make an Investment in Metchlepatam Goods whither by Imploying Armenians or other-wayes but being willing rather to Trust our owne Countrymen twas offer'd to any of the Companys Servants that would goe to Metchlepatam where they should have 5 ℔ Cent Commission on what they Invested but accepting Thereof but M^r^. Lovell & wee being willing to Join another with him M^r^. Sam^ll^. Woolston was recommended who came from England with the Presid^t^: who was Perticuler kind to him in his Passage hither, After they both went hence to Metchlepatam they behaved themselves Tolerable well till y^e^: new Companys Butufusys Arrived there who soon after Reduced them to theire Intrest & betrayed all y^e^: Companys affairs to them, discovering w^ch^. wee sent for M^r^. Lovell to call him to Account for severall mismanigments who when arrived Throughed all upon Woollston so to be Throughly Informed of all matters wee had to lay to there Charge wee sent for M^r^. Woollston who Immediately quitted our Servis & shelterd himself under the Pretended Consull where he was Imployed till they found him no Faithfuller to them then he had been to us will he was allso expected but still Continued his pratution to him Notwithstanding our demanding him and with Applications to y^e^. Government & watching Oppertunitys to seize him which he prevented by keeping in his house all w^ch^. y^e^. Company was Advised off who answer'd in theire last Letters they doubted not but there would be an order to M^r^. Pitt for his Delivering him to us Coppy of which Paragraph

comes inclosed but whither hearing or fearing such an order comeing to him he After a most Impudent & Audatious manner and in derogation to our Masters orders & Intrest he putt him on board a Vessell bound for Bengall as ℔ Coppy of M^r^. Frewens Letter inclosed to w^ch^: wee Refer you.

Wee acquaint you with this in hopes you may have an oppertunity of Seizing him in Bengall which wee desire you if Possible to Effect though att some Charge & send him up hither by the First Oppertunity for he & M^r^. Lovell has had the Investing of Upwards of Fifty Thousand Pagodaes of w^ch^: they have given no satisfactory acc^t^: besides Woollston after Lovell came away opened severall of y^e^: Companys bales & disposed of Sundry Necessarys belonging to the Factory & have not brought the Dustore to the Companys Account Notwithstanding they were orderd strictly to doe y^e^. same They likewise betrayed the Companys Secretts in every Respect & not onely assi[s]ted them with Books & Musters but brought in severall of their Goods under our Dusticks. To Gabriell Roberts Esq^R^.
Deputy Govern^R^: &c^A^: Councill att Fort S^T^: David S^Ps^.

Our Last to you was Dated y^e^. 18th past month since w^ch^. have Recd Yours of the 4th Ins^t^.

Gunner Attkinson has Recd the wages for y^e^. two Europe men & Lascars on board the Expedition & Doubtless has or will Remitt it them, if the Sloop Expedition will be ready to come hither in a months Time or thereabouts you may keep y^e^. Lascars Otherwise send them ℔ first Oppertunity for y^t^. they belong to our Gunroome w^ch^: is what wee Forgott to write in our Former Letters.

Wee have wrote you Fully y^e^. Condition of your cloth as to their last Investment and if you find it so difficult as you represent to sort to any other Number then the first wee would have you for y^e^. Future make Musters for y^e^. other Numbers w^ch^. will in a great measure direct your Judgment & may Contribute to a better sortment wee never Complained of many Numbers in M^r^: Frasers time but Thought it rediculous to sort Cloth so Nicely as to make Ten & Twelve fan^s^ ℔ Cent in a Corge.

Wee fear y^e^. Chamber Friggott will not be here so soon as expected so shall make some other Provission for money to Supply your Merchants of which wee'l speedily advise & wee cant but wonder your Merchants should be so Clamarous for what Remains when they have been so plentifully supplyed and that they are sure of good Payment the short Delays of which wee are not any ways Jealous will be Prejuditiall to a Future Investment on which wee expect Considerable abatements in y^e^. Prises.

Wee have perused the List of our Merch^ts^. Cloth who tells us there will be speedily more Longcloth brought in & for what you Dye for the Future wee would have it of the Deepest Colour being According to the Companys Orders.

In our Instructions to the now Dep^ty^: Gov^r^: & Council wee orderd that your monthly expences should be duly Remitted hither w^ch^. has not been Complied with to this day nor is there any Account sent us of w^t^. goods Landed out of the Loyall Cooke w^th^. theire Value & what Amount comes to the Company Thereon as allso whither what was overpaid Account their Commission be made Good in theire Cash; all w^ch^. advise us Fully in your Next y^t^. wee may send the Company such Accounts Thereof as they expect & have orderd.

The Gov^r^: Acquaints us y^t^. you have [bo^t^.] sheating boards so y^t^. wee hope the Sloop Expedition [will] be speedily dispatcht to us of which advise us & wee [will] order the Companys bales to be Loaded on her.

Wee shall send you w^t^. stores wee can spare by the first Oppertunity, but for Culverine Ordnance wee have none which you must take from [the] places you have least occasion for att Fort S^t^. David th[ere] being more then what Necessary.

All goods landed here must Pay y^e^. Custome & if afterwards Shipt off for your place must pay the Certificate which should wee any wayes allter would make Confusion & not be any advantage to the Company nor your Port from whence Goods are very often Shipt off for this place.

Tis most Certain Englands a principal in the Warr with the Emperour & Dutch against France & Spaine which is Confirmed to us by Letters the Govern^r^. has Recd from Aleppo & Spauhawne Coppys of w^ch^. he has sent to your Dep^ty^. Govern^r^. so that 'Tis very Necessary you keep your Garrison in y^e^. best posture of Defence your Circumstances will Afford Butt for Europe men wee have but very few here so that can spare none.

The Prize Curr^tt^. you sent us of China Goods not any wayes incourageing so shall send no orders for the unloading any att your Port.

The Silk Manufacture wee desire may have all the Encouragement Immaginable & that youll from time to time advise us what Progress you make Therein. M^r^. Haynes wee understand is willing to take some of the silk wormes under his care and Management provided he may have two or three Necauds att the

Companys Charge to instruct his people & that what silk he makes will sell the Company att the Markett Price, wee think his Proposall will very much Contribute Towards propogateing y^e^. Manufacture & order y^t^. you Accept Thereof.

Twill be some time before wee have occasion for your Bales though Desire youll hasten y^e^. makeing up of what Number you can & lye in a readiness for the first Companys ship that shall call att your Port.

The Insolences of the Junkaneers att Bomipollum must be kept & if they have not released our Peons wee approve of the Method you propose of doeing yourselves right.

Wee have had a quantity of wood layn ready some time att Bomypollum for want of Conveighance hither but now Rice being Cheap or not worth while to Freight Boates thither ℔haps you may gett them to take on that Wood w^ch^. wee very much want here.

Wee would desire you to make some end or other of Narran Reddes buisness your defering of which is a Prejudice to the Company's Affairs att Nellore where he is Governour.

To Mr. Stephen Frewen
Chiefe &c^a. Councill att Metchlepatam.

Sirs.

Our last to you was the 18th and 28th of March by Sloope Charles & Betty who sailed hence the 2d Inst. on whom wee sent you severall things for Presents but Doubt very much whither she's arrived w^th. you haveing no Advises of the same, Coppy of which Letter & Invoise comes inclosed.

On 18th Inst: wee Recd yours of the 7th Ditto adviseing about the Wreck of the Norris which wee all take to be a Flam & probable enough it is given out for the Reasons you mentioned for how should a Wreck w^th. that Prodigious weight in her Bottom as she had driven 50 Leagues to y^e. Southward when att that Time she Sunk y^e. Curr^tt. sett to y^e. Northward.

Wee hear M^r. Frewen had Conference with M^r. John Pitt & some Notice past between them just before that Buisness happened about Woollston the purport of all which ought to a been lain before us to enabled us the better to have Judged thereof & likewise that wee make a due representation of it to the Company & lett it be signed by M^r. Frewen & M^r. Faucett who wee hear were the Managers & Spectators Thereof & wee allso in your next Letter order they would give theire Reasons for excludeing the Three Gentlemen of Councill before they left the Shoar & refused the Receiveing of them into Councill after their Returne Notwithstanding the Presid^t. hinted to them their Error Therein a ℘ticuler Letter which he Imparted to us to which you ought to heed have Regard before your Single or joynt Opinions it not Contradicting a Generall Letter & you know y^e. reasons for sending for those Gentlemen w^ch. was not for theire misbehaviour or any thing that could be construed to their Prejudice.

Wee would have you use your endeavour to provide the Timber & Plancke formerly orderd and the best Firewood when the season presents to y^e. amount of Ten hundred Thousand Sticks.

If the Merchants will abate Considerable on their Chay goods wee shall think on an Investment otherways shall Desist & with your next be sure to send an exact Account of what Goods in your Godongs Merchants & washers hands.

May 13th 1703.

The foregoeing was wrote to have come by a Boat who soon After alter'd her designes since which on the 5th Inst. heres Arrived the Howland one of our Masters Ships bound for Bombay but put in hither by bad weather and a Tedious Voyage from the Cape, they had no Pacquett for us but in regard to y^e. Warr & y^e. Union of the two Companys, wee opened the box where wee found a Pacquett for this place & Bengall the purport of both which youll perceive by both y^e. papers inclosed which is Coppy of what sent to President John Pitt & Councill & y^e. Reason of our sending it you is that it may not be misrepresented to the Natives or others which you need not say any thing of unless you find it so.

Yours of the 28th past month wee Recd the 11th Instant & Observe what has happend between the Nabob & you & other Europeans theres Certainly a Present due to him in which wee desire you allways to be as Thrifty as possible for which wee had made Provission by sending severall sorts of goods & Rarities by the Charles & Betty in which wee must allways make our presents & avoid giveing ready Money.

'T was a very great weakness in you to Pay your arrears to your Madapollum Merchants without Deducting what they owed account of Dustore where that Fault lyes is easily to be guest att but if theire Conditions be such as you represent wee advise you to take the Longcloth as you mention but see & do your best to prevent any Loss to the Company.

Wee order you by the first safe Conveighance to send up your Books & wee shall speedily give you orders what Method you shall keep them in for the Future

for that all the Stock to be sent out by either of the Companys after the Comeing out of these Ships is to be for Account the united Trade of India, wee are

COUNCILL ATT SURRATT.

HON^{BLE}. S^{R}. &C^{A}.

Both yours of the 5th. December & 27th. Nov^{r}. wee Recd 14th past month which the news Papers enclosed for which wee Thank you & our last to you was allso the 5th December most part of the news in the Letters before mentioned is Contradicted in what you sent Lately to Anjango which was Forwarded to us, from whence they write you were not at leisure to Accompany it with a Letter by reason of your City being Invested by Savagee which wee hope may give you an oppertunity of it wth. the Companys Intrest and your owne likeing to withdraw from that hellish place.

Wee hear of Severall Seperate Stock Ships on this side the Cape & wish the Prosperous meet with no Purchase where you say she is bound Otherwise the Companys Settlements will all meet with Troubles.

The Translate you sent us for liberty of Trade to all Europeans is much the same to w^{t}. was sent us from Bengall in Feb^{ry}. last when they had not the Bennifitt of it y^{e}. Government expecting a summ of money for the Same.

Wee are heartily Sorry for y^{e}. great Loss our Masters have sustained at Bombay haveing as wee are advised lost most or all theire Cruzers belonging to that Iland in the late Violent Storme.

Wee shall write your Vackqueell att Court as wee have occasion & desire youll give him strick Charge to Advise us of all news of moment that Relate to our Masters Affairs. They write us allso from Anjango that you have dispatched the Loyall Bliss & Nathaniell with Rich Cargoes for England where God send they may Arrive in safety.

The Chamber Friggott M^{r}. Dollbin is not yett arrived & wee fear the Arimzeb has lost her passage to your Port for that wee hear they have mett with Disapointments & Troubles in theire Affairs att Amoy.

Wee are under some concern for the Pembrook Friggott Capt. Wealey hearing Nothing of him from your Port, he was left by the Worcester Friggott a Seperate Stock Ship that came to Anjengo at Delagoe in August last when he intended to follow a month after, wee wish he escapes the Pyratts and the Pfidiousness of those Natives.

You mention in one of your Letters yt. you had news by way of Muscatt of the arrivall of ye. Bliss & Nathaniell in Persia wee wonder you had no news likewise from that place what is become of Capt. Morris & those poor Soulls Taken with him.

Wee observe in the late news papers ye. Arrivall of the Dutch East India Fleet in Holland & that likewise wee had some Ships Arrived in England the Names of which wee desire you'll Advise us when you are Informed Thereof.

If the Regard & Howland sailed from England in July for your Port wee hope by this time they may be Arrived when Doubt not but youll Impart to us what news Materiall they bring wth. them.

Wee shall now expect in a little time the Arrivall of Ships from your Port on whom wee question not but youll send us a supply of wheat & some Red & Blew Salloes & Garden Seeds as Formerly desired.

Wee wrote you a Twelve month since for the Antient Phermaund of this Place which was sent hence in Sr. John Childs time it being from a Jentu King which may be of Servis to us in Case of any disputes with the Government.

MAY THE 18TH. 1703.

Just as was dispatching the above written here Arrived the 5th Inst. the Howland Capt. Thomas Hayes Comr. put in here by bad weather & meeting a Tedious passage from the Cape & as he tells us has Sprung most of his Masts & Yards, wee enquired of him whither he had a Pacquett for this Place who answerd he had none but what was for Bombay so wee Considering how much it Imported the Companys Affairs that wee should know how it stood with us in Relation to the Warr & the Union between the two Companys wee gave the Commandr. an order to send for the Packquett which was in a little Box wch. wee opened and found Therein a Pacquett for this Place & Bengali the Latter wee Forwarded to them in a few dayes after & our Pacquett contained a letter from our Masters & one from the twenty Four Manugers for the United trade Coppy which wee Forwarded to Mr. John Pitt &ca. att Metchlepatam as therein Orderd the purport of which is that he & his Councill repair hither to Assist in Takeing an Inventory of the Dead Stock & afterwards some of our Councill return with him to Doe ye. same with theires att Metchlepatam & Madapollum.

Wee shall not Trouble you hear with a Relation of Europe News supposeing the Regard & the new Companys Ships are long before this Arrived with you.

Capt. Hayes intends to be saileing hence about the beginning of next month before wch. time if any Ship Arrives from Europe so as to bring us Fresher News wee will be sure to Advise you Thereof.

Wee Desire youll Forward the accompanying Packquett to the Rt. Honble. Company by ye. first oppertunity. Wee are

No. 32.

TO GABRIELL ROBERTS ESQ^R^.
DEPUTY GOV^R^. &C^A^. COUNCILL OF FORT S^T^. DAVID.

S^RS^.

Yours of the 21^st^. Ins^t^. wee Recd the 24th D^o^. wherein you Resite y^e^. late order recd from the Manugers & assure us of your speedy Compliance therewith, but you Mistake in one part of it which is on takeing an Inventory of the Dead Stock, which is to be done when the new Companys President & Councill come to Assi[s]t them.

Wee have Recd y^e^. Ten Timbers & Desire for the future y^r^. when any Planck or Timbers comes to your Port you will with all expedition Advise us the quantity & quality when wee will send you orders about it.

Wee approve of w^t^. you have done in Narra Reddees Buisness & would have you remitt the money y^t^. is paid hither to the Gov^r^. & Councill & wee will make his Attorney here discharge the Persons that have paid.

Wee shall take care to provide our selves w^th^. paddy here.

'Tis not Improbible but that Daud Cawne may call upon you whom wee would have you Complement w^th^. Liquors & such Toyes as the Dutch have done, & you may send any of your Councill w^th^. it, except M^r^. Haynes & M^r^. Berlue, 'Tis but lately he has had a great Present here, Therefore wee think if you Present him to the amount of One hundred and Fifty Pag^s^. or thereabouts it will be sufficient.

The Gov^r^. Show'd us the Paper sent to your Chiefe Dubash from Porto Novo, the whole Country knows y^t^. w^t^. Gopall told the Nabob is falce & y^t^. wee purchased the place out right of those that power to sell it & not took it as a Pawn & if the Nabob makes any Demands on y^t^. Account you must tell him y^t^. it is falce & that the Writeings relateing to it are lodged here, be sure to send us Frequent advices if you are likely to have any Troubles from him and if a Europe Ship arrives wee will send her to you, w^th^. what Assistance wee can.

Here is your old Mulla Kidda John who was sent Some Years past by the Govern^r^. & Councill of this Place to be your Mulla who sayes you have Turned him out by reason that he would not receive his Wages in Paddy w^ch^. wee think very hard, for how is he to make Provission otherwayes for his Family if he is to Receive all in Paddy besides there is a great deall of Difference between a Peon & a Mulla who is one of your principle servants & you generally most Confide in him, Therefore if his Crime be no other then what before mentioned wee would have him Reinstated.

M^r^. Fraser will not Signe the Consultations unless you send the foule Coppy Book to Compare them w^th^. therefore send it by y^e^. first oppertunity & wee will see it Done & return them to you.

You have a Sarj^t^. w^th^. you Man^r^. Du Bane who has desired leave from us to come hither where his family now is, According to his request you may ℔ mitt him & wee will return you another Sarj^t^. in his Room.

Wee are

To the Hon^ble^. Jn^o^. Beard Esq^r^. Fort S^t^. George June 3^th^ 1703.

Presid^t^. for Affairs of y^e^. R^t^. Hon^ble^. English East India Company in Bengall and Govern^r^. of Fort William &c^a^. Councill.

Hon^ble^. S^r^. &c^a^.

Yours of the 3d of Aprill wee Recd y^e^. 20th past month with the inclosed papers as ℔ List.

Wee Observe y^e^. many Reasons you write in your justification about takeing the John & Mary's Pepper w^ch^. are Contradictory one to y^e^. other & in our opinion do not in the [least] Justifie you in it, had The Ship come hither w^th^. Pepper she had not att all encreased our Tonnage besides wee should have loaded it home in such manner as would have been most to the Companys advantage & satisfaction, & would desire you to Consider whither the Company would not have paid one & the Same Freight if that pepper had been Laden on the Hampshiere in this Road as they Doe now for that Loaden on her at Bencoolin besides it would a been more for the Security of the Companys Estate to have dispatched two in Company then a Single Ship att this time of Day.

Wee find lett y^e^. price Currant be what it will you are to Creditt us but 9½ Rupees ℔ Maund to Justifie the Shooting of it, besides you thought it unreasonable to send it to Madrass Suspecting wee should send it home on full Freight whereas yett wee never Did, but had it not been much better to have sent part of that on full Freight rather then send a ship with above Forty Thousand Pag^s^. value in bales to take it in att Bencoolin on full Freight & whereas the Phoenix was to come hither wee think there was no Ship wanting to bring Stores & Provissions.

What you say as to the Ship that she could not be here in Point of time & y^t^. y^e^. Comander came up the River without your order or knowledge has some weight in it, but then is not y^e^. Company in a Fine Condition that theire Commanders shall run w^tt^. Risgoes they please w^th^. there Estates, Wee think you had Done well if you had Continued y^e^. Pepper on board her & lett her come hither so Soon as y^e^. Season had ℔mitted for w^ch^. Deviation y^e^. Company would not have paid one penny Demorage.

The Presid^t^. you site of the Ship Success whose Pepper Agient Charnock &c^a^. took out, wee are Informed it thus, That Ship Arrived in Sep^r^. when Cap^t^. Heath was there in the Defence who had orders to bring up all the Companys Servants hither but for want of Vessells for that purpose there being Goods & other things to bring away, that Pepper was sold and y^e^. Ship taken into the servis to Assist therein, if so wee think thats Nothing att all to this matter besides wee are of Opinion that ill Presid^t^. ought to be Forgott & naught but good ones to be Remembred & Practiced, Wee shall not run further into any arguments about this matter but leave it to the Company to deside who have or wo^d^. have Acted most for theire Advantage they onely being the proper & best Judges Thereof.

The Reason of our Designeing the Chamber Friggott for the Bay was our fearing that she would not Arrive till March or Aprill, att which time if any Ship Dispatched hence they must make a Winter Voyage which is very dangerous in time of warr, to avoid w^ch^. wee had Thoughts of sending her to you for Salt Petre & Provissions.

Wee desire you to send no more Silk winders till wee Request them.

M^r^. Peachy Dyed in M^r^. DuBois's house into whose hands fell all the Effects he had, for that Nobody would Meddle w^th^. them fearing Troubles from his Relations, so that if he left any thing wee believe it is intirely lost.

Wee have by us about y^e^. Quantity of Petre you mention, w^ch^. is little more then what will suffice for one Ship & for Cowreys & Coffee here is none P[r]ocurable & our sugars are all Java which wee fear are not so Vendible in England so hope wee may be Certain Supply of Petre from you.

On y^s^. Sloop Expedition M^r^. Jn^o^. Litton Master wee have Laden one hundred & Twenty Candy of Copper Amounting to Pag^s^. [*lacuna*] as ℔ Invoice & Bill of Loading inclosed the Chests were all in peices, so that wee were forced to put it in Baggs theire is four Pecull to y^e^. Candy each pecull 131 lbs. all w^ch^. is weighed by the Master, This Sloop was run away with from Bencoolin by the Surgeon & another who wee cant prosecute for it, haveing no Evidence *Viva Voce*, The Sloop has been in att Fort S^t^. David where her bottom has been extraordinary well Fitted so that she will want little or Nothing excepting Caulking her upper works & two or three paire of Standards up her Deck & Sailes w^ch^. wee desire you to supply her with & what elce is Necessary her list of Stores & Paymasters Account wages comes inclosed.

If wee have any Europe Ship Arrives in time [wee shall] send her to you to be Return'd us with Salt Petre [and Pro]vission the Latter end of August when if you find no Ship Arrives w^th^. you, wee would desire you to return us this Sloop Loaden with Salt Petre & who wee believe will carry about Six or Seven hundred Baggs otherwise wee desire you to dispatch her in Sep^r^. Loaden w^th^. Stores for Bencoolin for wee believe they want the Vessell upon that Coast.

The Hampshiere Sailed from thence the first of Feb^ry^. for England a full Ship & the Sarum arrived there [*lacuna*] whose Cargoe wee hear does not goe off therefore wee dont request your sending any goods upon the Sloop but ℔swade

what Portuguez you can to goe theire with theire Familys w^ch^. place is become very healtfull.

Here was Loading in this Road Ships for China, Tonqueen, Manelha & Siam that for China was Dispatched on the ultimo of last month & y^e^. others Ready to Follow in few dayes but in the Afternoon just as the Supra Cargoes were goeing off here arrived the Pembrook Friggott Cap^t^. Whealey who mett with two Pyratts att Mayotta who took him out for a Pylott for the Streights of Mallacca & Stript the Ship of her Stores & some other few things for a Relation of w^ch^: wee Referr you to the paper enclosed, The Pyratts went for Madagascar where 'tis said they were to joyne Ship Speaker & reported that Ship a little before Christmas last brought thither a Rich prize that she had Taken in the Red Sea & whilst they lay att Mayotta they took three Arrab Vessells belonging to Patta whose men they putt all to the sword, y^e^. Pembrook had one hundred Candy of Teeth on Board w^ch^. they Did not meddle with, The [news] Aforementioned has occasioned all four Ships to desist from theire intended Voyage, so that w^t^: will become of Trade is easily to be guest.

M^r^: Pitt the new Companys President Dyed y^e^. 8^th^. of past month at Durum Patt of an Applectick Fitt since which wee have not heard any thing Relateing to theire Affairs att Metchlepatam.

After Loading on Board this Sloop the Aforementioned Quantity of Petre & she can take in more wee would desire you to fill her up w^th^: packing stuff of all sorts.

Inclosed comes our two last Generalls dated the 15 & 17th May last. Wee are

S^RS^.

Both yours of y^e^: 28^th^: of past month & 5^th^: Ins^t^: wee have Recd & have paid your 3 Bills for Ten Thousand Pag^s^: as Advised of in y^e^: Former.

Wee shall take care that Somiah gives discharges & wee think you give a very good Reason for Narra Reddees Solliciteing in that buisness.

Wee hear that Daud Cawne is att Porto Novo & it is not Improbible but that he may give you Some Troubles, so Yesterday y^e^. Govern^r^. Dispatcht the President to you, on which wee have sent you Twenty Soldiers, not knowing when y^e^: Howland will be Ready or whither they will come att all to your Assistance that Ship not being under our Direction, nor can wee give orders to them fearing it will bring y^e^. Ship upon demorage, you will soon see what the Nabob aims att, and if he remains att Porto Novo wee would have you lay Tappys upon the Road for F[r]equent Advises, but if he goes away to Arcott or comes downe this Coast, return us our Twenty men with all Expedition, but you may keep Sarj^t^: Latterell there & send Sarj^t^: Du Bane in his Roome.

Wee have Committed M^r^: Bawgus to the Charge of the Cap^t^: whom you are to secure till he has paid the Companys Debt.

Wee observe w^t^: you write of Mulla Kiddar Jean who should not have been displaced without our leave but if he be guilty of those Enormous Crimes you represent wee Confirme it & order not his Reinstatement, unless he Acknowledges his faults in the most Submissious manner & promises of Amendment.

Wee doe not hear yett from Metchlepatam y^e. Rustundell Cawne is proceeding so far into your Country as Chickcacull, but it is not Improbable but that he will & likewise make you a Vissett, his Temper wee believe to be as you write, hauty & Avaritious, for wee find none of y^m. otherwise, if he gives you Troubles you must withstand him as well as you can, & to enable you the better to doe it wee have on this Ship sent you Twelve Portuguez Soldiers & orderd Six English Soldiers from Metchlepatam who will embark on this Ship, The Provissions are laid in for them so that there is Nothing to pay on y^t. Acco^tt: or theire Passage wee have allso sent you Fifteen Candy of Powder as ℔ Invoice & bill of Loading inclosed, wee can give you no ℔ticuler Directions how you should Mannage matters with y^e. And if by y^e. Instigation of y^e. Dutch should (of which you are Jealous) demand your Phirmaund for your Settlement of Priviledges for which you say never had any, wee best answer wee can Think on, will be for you to tell him that all Phirmaunds &c^a: as Soon as Granted are sent to Madrass to be Lodged there for theire Security.

No Chamber Friggott from China or Europe Ship Arrived till when wee shall not be able to send you a supply.

You had done well in doeing what was allwayes Practised in the Factory, that is on concludeing the Investment & to pay them y^e. Ballance, but you were stricktly forbid it, till they had brought in theire Proportion of Chay Goods due on former Contracts, which must be made Good to the Company, by you, or the Merchants, but your Reason for that & other things are not so weighty as they ought to be, Tis true wee did not disapprove of your advanceing 2500 Pag^s: to your Merchants but you may remember you did it before you could have our Approbation, or could disapprove the Same.

Mr: Frewen must be paid for ye. eight boates of Firewood & wee hope hee'll see the three that were behind come hither by ye. first Oppertunity as allso what elce he can procure.

The Presidts: Letter to ye. Governr: & our Journall Parcells for your Factory, were on the Sloop that mist your Port wch: shall be Coppied out againe & speedily sent you.

Wee hear send you what wee have by us for Presents of wch: wee would have you be very Thrifty, The threats of the Government availe little with us believeing for the Future wee shall have little Buisness to do in their Port.

Your no answer was proper to his Paper who would fain be a Consull & President In all the Scrole Mr. Frewen & Mr: Faucett have writt wee find Nothing satisfactory as to Woollstons Buisness nor any thing that can be Called reasons for keeping the Gentlemen out of the Councill, who ought to be Summoned thereto as occasion required by ye. Chiefe.

Wee have Perused ye. ballance of your Cash wch: we see is Low & shall send you a Supply on ye. Arrivall of the Ship from China or Europe Shipping.

Wee are as Possitive as your Merchants, that unless they make Considerable Abatements, wee will make no Investment, & that too in no other sort of goods then wee directed last year & order you to Observe ye. Same.

Mr: Tillard has answerd our Letter directed to Mr. Jno: Pitt, as allso that to himself.

Factors provissions what we can spare comes on this Ship as allsoe what we have by us fitt for presents as ℔ Invoice & Bill of Loading inclosed.

Wee allso hear inclose ye. Duplicate of the Letter for the Govr: formerly sent on the Charles & Betty Sloop with a Translate thereof, which wee leave to your direction to deliver or detain since it is of so Long a Date.

Mr. Hollcomb &ca. has Advised us from Vizagapatam that he is Suspitious of some Trouble from Nabob Rustundell Cawne so have sent him to his Assistance Twelve Portuguez Soldiers, & order you to put your six on Board.

Wee have Considerd of the Paper deliverd you by the Portuguez who is so Charitable inclined as to give all that he has at his Death to Pious uses, & in ye. mean time desires to Lodge his money in the Companys Cash, att 7 ℔ Cent now you may Acquaint him that wee think our Church the properest Repossetory for money Given to such uses, wch. it may be, he may be deterred from on Account of his Religion, if so, the Governr. & Councill will take it into ye. Honble St. &c[a].

Our Last to you was dated ye. ꝑ mo. Inst. ꝑ Brigganteene Endeavour since which wee have Rec̃d Yours of ye. 6th May to which wee now Answer as allso to those of ye. 17th 19 & 20th Aprill.

Wee are not willing to enter into any further disputes of what has passed relateing to the Pepper Ship, or ye. bales sent hither, but think it best to look forward, & heartily unite in Carrying on our Masters Buisness to theire best

Advantage w^ch^. will be more pleaseing to them, & not a little Tending to our owne Creditt & Intrest.

Wee approve of your Proposall of sending Bengall & Coast goods in one & y^e^. Same Ship Dureing y^e^. Warr but then you must call here to Fill up, for y^t^. wee believe y^e^. Company will not like of sending goods hence to Bengall whereby they run a double Resgue thereof.

The Chamber Friggott wee expect not here till December or Jan^ry^. of w^ch^. Doubtless you have had an Account from Mess^rs^. Fleetwood & Whistler who mett with y^e^. new Companys Ship the Hallifax at Metchlepatam, who give an Account of Two French Ships they mett in the Streights of Mallacca for a Relation of which wee shall Refer you to them, the Colchester wee expect will be here next month, Cap^t^. Rouse and his Purser wee hear are Dead & severall of his Ships Company & 'tis said y^e^. Surviveing are but in a weak Condition, when She Arrives wee will Dispatch her to you for that wee intend her for the Sep^r^. Ship but if it should so happen y^t^. you cannot gett petre you had best detain her till December, when pray send her early to us.

The Gloucester Friggott as advised in our former Letter being arrived at y^e^. West Coast & expected here, when wee will Immediately return her with Petre & Redwood & Five hundred bales in Case y^t^. your Letters discourage our expecting y^e^. Colchester here in Sep^r^.

Wee are Glad to hear y^e^. Charles and Betty Sloope is Safe Arrived with you her missing Metchlepatam was a great Disappointment to us & severall people who sent things on her, what belongs to y^e^. Company wee Desire you to send thither by y^e^. first Oppertunity, unless you have Occasion for it, The Character wee gave of y^t^. Sloope is no other then what wee had from your Bengall People and those that Sailed in her, w^ch^. Renderd her useless to the Company in these Parts, wee will order M^r^. Holcombe to send you M^r^. Addams's Bill of Loading.

Wee have Considerd of S^r^. Edwards Letter to you about Woolston & think it hardly worth our while to Answer but hope now y^e^. Unions Compleated y^t^. there will be Scruteing into each Companys Servants good or bad services to theire Masters, as well as Justice to theire Neighbours, when wee Doubt not butt will be Found that our Services are as Justifyable as those Empty title Gentlemen who call themselves Embassadours & Consulls, but regarded as Such, by none but those of theire owne Gang.

Wee know not who S^r^. Edward means escaped hence w^th^. onely the skin of his Teeth who Doubtless had some other about him Fitt for S^r^. Edward or he that wrote that Foolish Paper, but if wee guess aright att what he means, Woollston came hither with no skin att all & had Remained so till this day, but for y^r^. Favour & Charity of the President & Councill of this Place, who for want of Honest Principles betrayed his Masters in Divulging theire Secretts to those who Some called Embasadours & Consulls besides Falce in his Trust in y^e^. Merca[n]tile Part 'Tis true y^t^. M^r^. Lovell was chiefe in the Commission, who when sent for came hither, whom wee Charged with many things of Severall Natures whose defence in Generall was y^t^. M^r^. Woollston Did it, or that he could give no Answer to it, unless Woollston was Present, which made us use those endeavours we have Done to gett Woollston hither without wee saw there was no Adjusting theire Accounts, for which end Lovell waited here Severall Months, but never under Confinement & when he went to China gave an obligation to return to this Port againe, 'Tis as S^r^. Edward Sais that they both went Downe Factors but at y^e^. Same time twas understood by them & us, that they were to be Recalled att our Pleasure & to come hither to Adjust theire Accounts, but youll see by Woolstons Account sent us, of which wee hear inclose a Coppy, that he makes himself a serv^t^., for After that wee found they betrayed us in every thing wee Imparted to them, wee desisted from makeing them any Consignement dureing w^ch^. time he has Charged Sallary so that that part of the Argument of S^r^. Edwards is out of Doors, you will find on the C^r^. Side of his Account has given Creditt for 2 Corge of fine Longcloth Amounting 204 Pag^s^. which he took out of the Companys Bales in the Warehouse of which being Detected he Brought it to Account, & wee can

likewise Prove against them that they sold Severall of|the Companys Necessarys of the Factory & never C^r^. the Company for it, besides on y^e^. new Companys Servants comeing there they gave them all manner of Assistance in theire Investments of w^ch^. they were Ignorant the ℘ticulers of which wee advised in our Letter of y^e^. 29th of March so Desire your uttmost Endeavours that he may be Brought hither to Adjust his Acco^tts^. which you may Engage will be done without any of those hurricans suggested by S^r^. Edward, for wee think him not worth our Notice further then to see that y^e^. Company has Right done them & y^t^. in the Proper place, and wee likewise Promise y^t^. he shall escape with what skin properly belongs to him without being put into a Cock house or Dungeon as he deserves.

Wee hear send you a Coppy of what Leases wee give for houses & Gardens here & w^t^. y^e^. Companys write relateing Thereto.

Wee'll Procure as soon^e^ as Possible the Black stone you Desire for the Chappell, but y^e^. account y^t^. you have sent for Those for stairs is Imperfect in not mentioning how broad you intend your staircase nor w^t^. height you intend each step.

By y^e^. Munsoon wee Had Letters from Agent Owen & inclosed a Letter of news from Aleppo Coppy of which comes herewith & y^e^. 11th Ins^t^. wee had Severall Letters from Surratt from y^e^. Generall & Councill their, Dated y^e^. 28th Aprill, 15th, 18th & 26th May last in which they Advise y^e^. Arrivall of the Regard y^e^. 19th May att Bombay on which Ship they Received a Letter from the Manugers Dated the 24th Sep^r^. Coppy of which as Directed by y^e^. Same wee herewith send you, w^ch^. you are to Communicate to those at Fort England.

Here was a Report said to be Dutch News sent from Fort S^t^. David, That three French Ships were arrived att Goa, & that the beginning of May which news they say S^r^. John Gayer advised the Dutch thereof haveing it from Bombay, but in their letters theres not a word of it so wee believe theres Nothing in it.

We have had a Complaint from Cap^t^. Hayes Commander of the Howland, that his Carpenter Mate Ambrose Addams (whose servis is of great use to his Ships) has Deserted him and tis said gone downe to your Port on Cap^t^. Hart, & as he believes seduced by Cap^t^. Harnett & y^e^. Owners of Ship Good hope, to Discourage such Practices which may be of very bad Consequence to the Company some time or other, wee desire you to seize the aforesaid Person & send him up by y^e^. Sep^r^. Ship when wee shall have a Conveniency to send him to Surratt to serve in the Ship he belonged to, & if wee can Discover y^e^. Persons that Seduced him they shall be severely fined for y^e^. same.

Coppy of our Last Letter by Cap^t^. Hart Dated the primo Ins^t^. with Second Bill of Loading for what Laden on him comes inclosed.

Wee formerly wrote you Concerning The Effects of John Rozario Deceased, to which you gave answer in yours of the 3d of Aprill that the said Persons Effects was in the hands of M^r^. Russell who would Take care of the same, There is in his Chest or screwtore an Obligation of one Casma Dei for 150 Pag^s^. Lent him by said Rozario who Denys not the Debt & will Pay it to those who deliver him up his Obligation, he being now in Bengall, wee desire the same be Done & Rec̃d by M^r^. Russell as allso all other Debts shall be found due to him, & y^e^. Ballance paid (after his Creditors are satisfied) to M^r^. Curkanvill whom M^r^. Empson has given order about it, M^r^. Empson Further Informs us that he has heard Rozario Complain that one Henry Moore was Indebted to him to y^e^. best of his Remembrance 170 Rupees which he could not gett from him, so was the Reason of Rozarios goeing to Bengall, Wee are

TO THE HON^BLE. S^R. JN^O. GAYER
GEN^LL. FOR AFFAIRS OF THE R^T. HON^BLE. ENGLISH EAST INDIA COMP^A.
&C^A. COUNCILL ATT SURRATT.

HON^BLE. S^R. &C^A.

Our Last to you was Dated y^e. 30th Aprill & 18 May Coppy of which comes inclosed by Cossetts sent Via Anjangoe,Since which wee have R̃ecd Youra of y^e. 20th Feb^ry. 28th Aprill, 15th, 18th, 21st & 26 May with all Papers According to List.

Our Trade here is but very little at presant but what there is goes on as formerly, You advise that the Kings Hosbul[h]okum for Takeing of y^e. Restraint was arrived in your Parts, & they write the same from Bengall, but say that the Prince will have a Considerable Presant before they have the Fruits of itt, The new Comp^as. people tis said have given him about 15000 Rupees & ours have Deferrd it, till the Arrivall of our Masters Shiping, Wee hear of no Hosbulhokum come to these Parts, though wee Believe there is, & this has been hinted to us that wee must expect None without a Considerable Present, which wee shall not agree to unless compelld by Urgent Necessitys.

Wee are apt to believe that the Unaccountable behaviour of Cap^t. Lambert has very much prejudiced the Comp^as. Intrest as to the Freighting of their Ships in these parts & by w^t. you write wee find it has Effected your Shiping Likewise.

If S^r. Nicholas has been Tampering with the great men for a Phirmaund he will find it difficult to come off, of that matter without a Considerable Charge.

Wee Received M^r. Forbes Account w^th. M^r. Du Bois's & shall Debt your Presidency for the Ballance thereof as allso for y^e. Amount of his Outcry, the produce of his Effects are in M^r. Broomes hands you say was sent to England to satisfie the R^t. Hon^ble Companys first Demands according to Contract w^th. them, w^ch. wee allwayes thought had been Discharged before he Left England, he has Nothing left here now but the house his Widdow lives in, which wee wait the Comp^as. orders for the disposall thereof, for that he will still be Considerable Indebted to them.

Wee Observe w^t. you write about the Dutch, who have sufficient Force to Obliege the Government to doe them Rite, Notwithstanding which they Truckled to them, & doe the same in these parts giveing them large Presants & bear with theire Insolences, from which we can make no other Inference but that tis to

Involve us (wee mean all other Europe Nations) hopeing twill obliege us to break with them, when they can Ballance theire Account at theire Leisure.

Wee wish y^e^. Loyall Bliss & Nathaniell safe to Arrive in England whose Cargoes are Considerable to y^e^. Burthen of the Ships.

The Expedition Sloop was run away with from Bencoolin by the Surgeon theire M^r^. Davis & one that he Carryed of Shoar with him, they came from Atchien directly hither, & Complain of hard Usage which oblieged them to so desperate an undertakeing wee Confined them here for a Considerable Time intending to bring them upon theire Tryall, when undoubtedly they must have sufferd, but instead of Wittnesses *Vive Voce* they have sent us Affidavids from Bencoolin, so that the Docter is att Liberty giveing securety and the othe[r] still in Prison.

M^r^. Thom^s^. Wright has paid into the R^t^. Hon^ble^. Comp^as^. Cash 511 Pag^s^. 24 Fanams on Account of M^r^. Edward North Deceased, for which wee have given him our Bill as you direct.

Yours of y^e^. 18th May your drawing of 2 Bills on us for five Thousand 440 Pagodaes 3[f]^ns^. w^ch^. shall be Complied with, but Desire for y^e^. Future youll mention w^t^. Rupees or after what Rate to pay it in Pag^s^.

Wee thank you for y^e^. news inclosed in Yours of the 21st May & your other Letters.

The Munsoon Arrived here y^e^. 2d July & wee expect the Colchester here Next month y^e^. former brought us y^e^. good & great News of our Fleet having Taken & Distroyed all the Galloons & y^e^. French Convoy with them att Vigoe, which wee Doubt not but you have had a Particuler Account thereof Long Since.

Wee think M^r^. Bruces answer very insufficient Concerning his Detaining Cap^t^. Lamberts Effects & wee hear intends to doe the Same with Cap^t^. Rouse's w^ch^. if so, his Widdows undone, M^r^. Bruce by the Phœnix never Advised us that he had a Penny of Cap^t^. Lamberts in his hands, nor could wee tell where to Fix it, till wee Perused his Papers, amongst which wee found a Foule Coppy of the Sale of his Goods, from which wee drew out an Account, & Charged M^r^. Bruce with it, for that y^e^. Cap^t^. Purser, & Cap^t^. Lamberts servant[s] gave it here upon oath that they knew of no more of Cap^t^. Lamberts Effects then w^t^. they then Deliverd us, We know it is the Companys Orders which is Stricktly Complied with here, that the Effects of theire Covenanted Servants deceased shall be paid into theire Cash, but this is a Commander of a Ship, who Generally Take up money att Bottomrey so that if y^e^. Effects are not returned on the same Ship his Widdow or Chilldren if any be, must not onely pay the Bottomrey on that Ship that it came on but Likewise run the Resgoe on what Ship it shall Returne & this will be the Poor Widdow Rouse's case, if M^r^. Bruce should be so Imprudent as to detain his Effects, Wee refer the Consideration of this matter to your Hon^r^. &c.^s^ Councill, & if it Quadrates with your Judgment, wee desire you will be pleased to give your orders to the Gentlemen in Persia, to return the Effects of any Commander, Purser, & any other Officer, that shall Dye there belonging to the Ships of this Coast, on y^e^. Same Ship they belong to.

Wee Thank you for your orders to y^m^. to supply us w^th^. what Procureable wee wrote for.

Wee Observe the meanness of y^e^. New Comp^as^. Ships Cargoes sent for England, which will hardly pay Freight, Custome, & Demorage.

Wee Doubt not but before this you have heard that the Orenzeb called att Angango in Aprill last, & it was believed that she would winter at Carwarr or Tutecareen y^e^. Commander & Supra Cargoes of her was so unkind as [not]to write us one line, nor doe we hear when wee may expect the Chamber Friggott nor the Blessing belonging to this Port, but on y^e^. 23rd last month there arrived the Hallifax a new Companys Ship at Metchlepatam who left Canton 25th March who in the Straits before she came to Mallacca mett w^th^. French Ships Supposed to be about 30 Gunns each & full of men, they hoisting English Colours, when they Took them for Ship from this Port w^ch^. Induced them to send their boat on Board whose Crew they Examined Stricktly about y^e^. Warr of which the Halli-

fax's people knew Nothing of itt so they discharged their Boat & made the best of their way through the Straits being bound to Canton where they was expected last Year, but Looseing their passage believe they have lain at Brasell or Thereabouts, & know Nothing of the Warr with England, The Hallifax tells us that the Chamber Friggott Canterbury & Blessing belonging to this Port lay all the Year in China, for that the Merchants with whom they had to doe with is gone up in the Countrey to Buy theire Goods, but when or Ever he will Return is uncertain, & that another Ship the Blessing belonging to Surratt or Bombay Cap^{t}. Gainey Commander was att Mallacca with half her Stock bound for this Port & went back to China but not Fetching itt wee suppose shes gone to Atchien.

We Thought Cap^{t}. Sayes Ship had hardly been in Being, wee long since hearing that he designed her for Pegue, but our shipping thence brought no news of her Arrivall.

Wee were formerly Desireous of Surratt wheat, which now wee doe not Covett unless it will come at the same Price as Bengall w^{ch}. wee find fall out as good & much Cheaper, The Shallocs & Garden Seeds would have been Wellcome to us, of which wee desire a Yearly Supply as oppertunity Offers.

Wee heartily Congratulate y^{e}. Arrivall of y^{e}. Regard & believe y^{e}. French Ships that Chast her were those mett in y^{e}. Straits of Mallaca by y^{e}. Hallifax, The Mary, Cap^{t}. Lyell is att Zelone but wee Dont hear of y^{e}. Katharine.

Coppy of the Manugers Letter wee have sent to Metchlepatam & Bengall & Thank you for the news that Accompanyed it.

Wee have likewise had News from the Cape & Marautius that they much feared the Loss of y^{e}. Bedford for that peices of a Wreck Variously reported Came Ashoar att Marautius, If True (w^{ch}. God Forbid) She must have mett with the Misfortune of being blowne up, For had she been Lost on the Marautius, Some of her People would have been saved, & all that wee Comfort our selves with, is, that either She gott to S^{t}. Hellina After the Fleet was Gone or so near y^{e}. Cape that she returned to Augusteen Bay to winter haveing been there Last Voyage Outward Bound.

The Presid^{t}. Acquaints us he wrote y^{e}. Gen^{ll}. Some time agoe w^{t}. News the Pembrook Friggott bro^{t}: us Relateing to the Pyratts, A relation of w^{ch}. wee hear Againe Enclose, Which News hindred Severall Ships Proceeding from this Port Through the Straits of Mallacca, Which proves not onely Detrimentall to the Proprietors, but very much to y^{e}. Comp^{a}. in their Customes, The Pembrook Friggott Proceeds hence to your Port Under the Convoy of The Howland Mess^{rs}. Fenwick and Bennitt Supra Cargoes whom wee recommend to your Favour & protection.

The 11th Day of Last month here Arrived the Union Cap^{t}. Goodsoule, and Mess^{rs}. Cliffe & Bebbington Supra Cargoes, Designed from England to China but Looseing theire Passage Loaded Pepper att Bencoolin to Amount of w^{ch}. y^{e}. Company Orderd us to supply Them wth. silver, but they had disposed of the Rest of their Cargoe att Battavia for Gold, Soe that they wanted in silver near the Amount of their whole Stock On their Arrivall wee Acquainted them of the News of the Pyratts & laid before them the Danger of their Proceeding to China, yett Nevertheless they Resolved to Procicute their Voyage & prayed our best Assistance, & if possible a good Ship to Accompany them in order thereto wee made Proposalls to the London, who wanted Silver for their Stock as did allso y^{e}. proprieters of the Sedgwick whose Stock [y^{t}.] was intended for China was not Sufficient to bear the Charge of so great a Ship to obviate w^{ch}. Difficulty wee Resolved to Take out the Silver of the Howland, which wee could have disposed off att 76 Dollers weight for Ten Pag^{s}. & wo^{d}. have sent you the full Amount Thereof in Vinetians & Chuckeens, but Cap^{t}. Matthews being Jealous that if he went for China he should not returne soon enough to save his passage for England, wee could not prevaile with him, to come under any obligation to stay in China longer then the 22^{d}. of December, w^{ch}. the Supra Cargoes not thinking

Sufficient time to doe their busieness, made them desist from any further treaty about itt, so that the Union Saild the 9th. Inst. alone for China.

By a Sloop from the West Coast who arrivd att Vizagapatam, wee were advisd that the Gloster Friggatt, was arriv'd att Bencoolen who brought us Coppy of the 24 maneigers Letters with Pacquetts for Metchlapm. and Bengall wch. were forwarded Accordingly.

The Dutch report on this Coast that they had receiv'd advices from Surratt, which Sr. John Gayer acquainted their Directore he had just then recd. Letters from Bombay adviseing that three french Ships were arrivd att Goa on wch. was a new Directore to releive Mons. Polyboine and that he was gone overland to Surratt this news was Dated the 18 May new Style, but your Letters mention nothing of itt wee give no Credit to itt.

The 19th. Instant here arrd from the N°ward a Deans Long boat, wch. came from a Europe Ship of theirs who fetch in abt. 5 Leagues to the N°ward of Pollicatt, they left Denmark in October and came from the Cape the begining of [May] where they mett with a Seperate Stock ship bound for the South Seas who told them they came out of England with a great fleet of Merchts. men bound to all parts, so that wee hourly Expect our Ships, when shall be sure to advise you what news they bring, this Ship allsoe Confirms the Victory att Vigo.

Capt. Lambert carry'd hence with him Mr. Thoms. Bowyer who had Severall goods upon the Ship, wch. the ffreighters, on her returne Charg'd Capt. Lambert with, wch. he Suspecting in Gombroon, took a note from Mr. Bowyer to make itt good if he paid itt, Coppy of wch. comes inclos'd the freight for wch. goods wee likewise here send the Acct. which wee desire you will recover of Mr. Bowyer that wee may Creditt Capt. Lamberts Acct. for the same.

The Company sent you but five soldiers on the Howland, of wch. one prov'd a female with whom one of the mates lay with on board and married here, who wee made pay fifty Six Pagodas to defray the Companys Charges wch. wee will bring to ye. Creditt of your Presidency, The souldiers came hither in a weak Condition and without any manner of Cloathing, so we took them ashoar and refresht them, and bought them Cloths as ℔ the Paymasters Acct. thereof comes inclosd, desireing you'l Creditt us for the same.

Wee hope this Ship will gain her Passage to you, and if itt should fall out otherwise it is the Capts. fault, and must lye att his door, for he was advis'd here to goe Sooner hence.

Capt. John Wyatt who formerly serv'd att Bombay dyed here the 9 Instant indebted to one of the Companys Factors Mr. Wm. Finch one hundred Pagodas and not haveing left here wherewithall to pay him and there being a report that he has houses and Gardens and other Effects in Bombay wch. wee desire you'l be pleas'd to order your Paymaster to inquire into, and sell what he can find belonging to him and remitt the produce to us by Bill that so his Debt may be Satisfi'd here.

In yours of the 28th. Aprill you Acknowledge the receipt of severall of ours but neither the originall nor Coppy of that of the 28th. Aprill 1702 wch. wee now inclose a Coppy, and desire you will be pleas'd to send by the first safe Conveyance, the originall Jentue Phirmaund of this Place as mention'd therein. Wee are

Yours of the 8th. Ins^{t}. wee rec^{d}. the 14th. and that of the 20th. the 24th.

They have not as yett adjusted that busieness of Somiahs amongst them w^{ch}. when done shall advise you thereof till when lett the mony remain as itt is.

M^{r}. Bawgus is not in the Compa^{s}. Service but suspended long since upon Acc^{t}. of his Debt with the Company *ab officio ett beneficio* and when he has paid that tis our order that he be discharg'd.

As Paddy grows Cheap rents will most certainly fall, and therefore we cant but approve the letting out of your bounds, but how you will come to know whether Trimmelau looses upon his tenth part theres the difficullty.

Wee sent home on the last Ship your monthly Acc^{ts}. of your Beetle and Tobacco and Ganjee therefore pray in your next send us an Acc^{t}. of the yearly am^{t}. of y^{e}. same, and wee are intirely of opinion that tis the Companys Interest to farm out such revenues, but you must see such Farmers doe not oppress the inhabitants, and make such orders therein as to prevent the same, therefore if you can lett that revenue for more than itt made their's no reason you should continue itt in your hands.

Wee observe what you write about Mollem, that he Acts as if he intended to leave our Town of Caddalore, the Companys debt must be demanded of him, but with that tenderness due to one who has been so Serviceable to the Company on severall occassions.

Our Cash att present is very low therefore desire you to desist drawing bills on us on Acc^{t}. of your Merch^{ts}. wee daily Expect^{s}. our Europe Shipping, who if not arrives speedily shall by some means or other make a provission to Supply you.

You have not Exceeded our orders nor expectation in your present to Dowd Cawn being well assur'd the Dutch and French gave more.

Wee observe what you about the demands of M^{r}. Cracow the Dutch resident in behalf of one of their Merch^{ts}. who by no means we must suffer to gett any footing in the Town of Cuddalore, the Conquest of the Morattoes extinguishes all manner of right, and more especially that of Woddana Chittees, who deserted his habitation upon Acc^{t}. of the forementioned Conquest besides the inquiry of M^{r}. Hatsell, (is very remarkable) what houses and possession belong'd to the Duan, because those particular devolv'd upon the English, of w^{ch}. a List was given in, and that included, therefore if M^{r}. Cracow presses this matter farther, you tell him he has neither reason, Justice nor y^{e}. Law of nations, or Armes to

Justifie his demands, besides itt must be observ'd that Widdana Chitte did not purchase this ground but was given him, by him, that was then in possession, w^ch^. the Successors may Choose whether he will ratifie.

Inclosd is Coppy Paragraph of our Consultation on the 15^th^. Instant relateing to y^e^. keeping of Books from the 22^d^. July 1703 w^ch^. our Accomptant does now observe and wee order you to doe the same. We are

S^RS^.

Wee receiv'd a Letter from your Presid^t^. the 13 Instant dated the 4^th^., and with itt a Coppy of a Letter from the Hon^ble^ Managers for the united trade dated the 24^th^. Septemb^r^. 1702, which we shall strictly observe and act accordingly, and on the 11^th^. Instant we rec^d^. the same Coppy from S^r^. FORT S^{T}. GEORGE 25 AUG^{T}. 1703

To THE HON^{BLE} JOHN BEARD ESQ^{R}.
PRESID^{T}. FOR AFFAIRS OF THE R^{T}. HON^{BLE}. ENGLISH EAST INDIA COMPANY AND GOV^{R}. OF FORT WILLIAM &C^{A}. COUNCILL.

HON^{BLE}. S^{R}. &C^{A}.

Our last to you was dated y^{e}. 12th. of past month coppy of w^{ch}. comes inclosd, since w^{ch}. on the 17th. Instant here arriv'd y^{e}. Colchester from Persia on whom comes severall Armenians, who complain of Injustice done by Cap^{t}. Rouse w^{ch}. we are about adjusting with them, and shall acquaint you in the Sequall of this Letter, what conclusion wee make.

M^{r}. Bruce has most unaccountable kept all the Effects of Cap^{t}. Rouse, which must tend to y^{e}. ruin of y^{e}. Widdow, more especially if he has taken up all or most part of itt att Bottomrie.

Here was a rumour that the Ship was leaky w^{ch}. occasioned the orderring a Surveigh upon her, the report of which is here inclos'd, yett after all wee can't but think she requires cleaning and good Caulking and that leak stopt in her Stern, before she be laden Home.

The Companys orders hither are possitively to send them yearly a September Ship w^{ch}. was an advantage to them in Selling the Cargoe the begining of the Summer, ships going out then to all parts whatever, but itt being now a Warr and all their ships orderd to stay att S^{t}. Helena for Convoy, they cant reap that advantage, but then cutts off about four months demorage, the owners in Charterparty being obliged to Stay where they shall order to join others of their ships, or wait for Convoy att y^{r}. own Charge, itt being for the mutuall preservation of ship and Cargoe, but we fear this ship late returne from Persia, will hardly give you an oppertunity to load her for this place before the munsoon, which if you can do we shall be ready to give her a quick dispatch on her arrivall here, and itt would be a great direction to us to know the certainty which we hope to hear by your next letters overland, for if your Petre be not come down, we cant expect her, so that if the Gloster arrives from the west Coast with Pepper, we will return her thither again with 1000 or 1200 Baggs of this Petre by us, some redwood and four or five hundred Bales which wee cant doe if wee are to dispatch the Colchester.

Wee have inclosd a List of stores we desire you to send for this Garrison and that you will oblige those that have the Charge to provide them to send us the best of their sorts, and wish you could rather increase then diminish the quantity of Salt Petre, not only that it is Warr time, but the Company have now orderd that we should supply the West Coast with Salt petre for Kentlage for their shipping.

We wrote to Persia about M^{r}. Harbins mony wee attacht in Presid^{t}. Beards hands, y^{e}. Answer thereto comes inclosd to w^{ch}. we referr you.

Here being none as yett of our Ships arrivd from Europe and beleive if they come late near this Coast, they will goe directly to your Port, where arriving late may not find you in a Condition to returne them laden in January, which may put you upon Freighting one of them for Persia if so we desire you to reserve a priviledge of bringing six Horses for the Company and stores for this Garrison as ℔ List inclos'd.

Wee have by us att this time here and att Fort S^{t}. David, near about fifteen hundred Bales, but no stock for a new Investment, tho design if meet with encouragement either here or att Fort S^{t}. David by goods being Cheaper then formerly shall goe about procureing Seven or eight hundred Bales more for that the Colchester must be dispatch't as allso the Chambers Friggatt if she arrives in Jan^{ry}.

Since writeing the foregoing we have with much difficulty satisfied the demands of the Armenians, Coppy of which comes inclos'd, and have agreed thus that Cap^{t}. Ro[use and t]hose that had goods on board are to pay freight for 20 Tonn att 84 rupees ℔ Tonn, w^{ch}. the Cap^{t}. and M^{r}. Walker are to adjust in their Passage down, and what is Cap^{t}. Rouse proportion wee desire you to pay and by first oppertunity write to Gombroon that they make good the same Amount out of his Effects, and pay itt into the Companys Cash, and wee will allsoe write thither by the first oppertunity by way of Surratt, and altho the Voyage is att an end according to y^{e}. strictness of the Contract, wee have permitted them to Carry what Persia Goods remains on board, with what measure brought thence and their Persons ffreight free to your port, in Consideration the Ship did not proceed to Busserah and that they have paid Considerable custom here, besides to Sweeten them up a little who we find have been Sowerd in the Voyage.

Wee have putt on board redwood according to Charterparty, and have sent you two hundred Candy more, and six hundred Black stone as ℔ Invoice and bill of loading inclosd, likewise the Ships Charterparty w^{ch}. wee desire you will returne with her.

And if the Colchester should not return for a Sept^{r}. Ship we doubt not but you will send the Expedition Sloop to us as formerly desired.

Cap^{t}. Reid took up in Persia Six Thousand Shahee Am^{ts}. to Dollars 363$\frac{5}{8}$ for which we have taken his receipt and he is to be Answerable for the same to y^{e}. Company after the rate of what she took up according to Charterparty. Wee are

Herewith comes an Answer to M^{r}. Haynes querys. Wee rec^{d}. the fou'le Consultation Books, w^{ch}. shall be compared with the fair one and when signed by M^{r}. Fraser returned you.

In our last we wrote you to try what abatement, your Merchants will make upon an Investment, and since we hear cloth is so Cheap in your parts that they are buying Cotton to bring hither and good long cloth to be bought for twenty four Pagodas ℔ Corge, we allsoe wrote you about your ommission in remitting your monthly Acc^{ts}. and this is to add the Companys orders thereupon which is whoever in their Service in any place of trust shall monthly pass their Acc^{ts}. in Consultation of the proceeding month, and whoever omitts doing the same for the first offence he is to forfeit a quarter Sallary for y^{e}. second, half a years, and for the third to be suspended of the Companys Service, and these are their orders which we desire you to put in Execution for the future, the same allsoe relates to the Gen^{ll}. Yours of the 10th. we recd. the 13th. and observe what progress you have made wth. your Merchts. relateing to a new Investment, but hope you will be able to bring them to a better abatement, then fifteen ℔ Ct. att least, in regard that Cotton is Cheap, and no Europeans but ourselves make but little if any Investment, the Amount we would have you Contract for is fifty thousd. Pagodas and the sorts of goods to bear in proportion to your last Investment, and if any sort be increase'd lett [itt be Chay] Longcloth and Sa[llam]pores wee hope this may be compleated by ye. 10th. of January and in fifteen days after you have agreed with them, wee will pay them Ten thousand Pags. and on the first of December ten thousand more and by the last of Febry. the remainder, and sooner if the Chambers Friggatt arrives, for whom their goods are prepared.

Wee expect the six thousand Pagodas last paid will near compleat the Ballance with your Merchts. which cod. not be sooner done for that in a late Letter from you, you advise you were then Embaleing goods that wod. Compleat

Wee desire you to procure the Coppy of that order of the Presidents, that sent Mollem to Dowd Cawn and send itt us in your next.

Wee have perus'd your paper Cont^{s}. the many charges on the trade of your place Am^{ts}. to considerable, which att your first settling, wee beleive most part if not all might have been laid aside but since custome haveing revetted their pretentions, we must well consider before we give any directions therein for fear y^{e}. Our last to you was 26th. past ℔ Ship Colchester, coppy of which comes inclos'd, who we hope arrivd safe with you but considering how she must be Caulkt and cleand, before she will be in a Condition to take in the Companys Goods wee beleive you will be hardly able [to haste]n her to us till aft[er the Munsoon] and if so wee desire you to give the Cap^{t}. orders to call att Vizagap^{m}. and Metchlapatam to take in what goods of the Companys ready, which wee beleive will not exceed above one hundred and fifty Bales.

Paddy has risen here within these ten days upwards of twenty five ℔ C^{t}. and if we have not rain itt will again be very dear, so desire you will send us, what rice you can on the Comp^{ns}. Ships bound to this Port but lett itt be very good.

By last letters from the West Coast wee expected by this time the Glocester would have bin here whose Cap^{t}. Perhaps may chance to loose his way, and arrive att your port instead of this, when we desire you will open the Pacquett and send us Coppies thereof by the first Pattamars, reserveing the Originalls to come by the first ship, and if she comes loaden with Pepper wee desire you will unload itt and send us what you can spare thereof by the Colchester, beleiveing itt more the Companys Interest to send all y^{e}. Pepper to England, than sell any

of itt in the Country, and if the Dep^{ty}. Gov^{r}. and Councill of Bencoolen should desire the return of the ship, adviseing they are makeing preparation for her Cargoe so as to dispatch her thence in Season, then we request that you'l lade on her Kentlage of salt Petre and red wood, and something more of each if you can spare itt, to lye ready there for other ships and return her to them so soon as possible to which if itt should happen they give no encouragement in their Letters, then as fearing we shall have no Shipping this year, you may load her home with what goods you have by you and fill her up with pepper requesting as before you'l send us the remain[der later] if you dispatch her so early as she can call here she may chance to join the Colchester and Chambers Friggatt.

Brimstone is here att present about thereteen Pag^{s}. a Candy which by reason of a great quantity we know is gone to your Port wee beleive itt will be much cheaper if so we desire you will buy for the Companys Acc^{t}. one hundred maund Bengall and send itt us by the first oppertunity.

By mistake the Cap^{t}. of the Colchester carry'd hence thirteen Chests of Rosewater, consignd to this place belonging to the R^{t}. Hon^{ble}. Comp^{n}. w^{ch}. we desire you to returne with the ship unless you have occassion for some part of them.

You would doe us a kindness if you could send us such a quantity of Oyl and white lead as you did last year but the Oyl happened to be putt into a Butter Jarr which did itt a prejudice so desire you will order care to be taken of this to prevent the like. Wee are

6. Wee know the Company is averst giveing their Serv^ts^. dyett mony where there is conveniencys to keep a Generall Table which you are enjoin'd to mannage Fruggally and send your monthly Acc^ts^. hither of the Expence thereof.

7. What enter'd in your Diarys of the 6^th^. of June 1702 relateing to what you did then att a Bitchar in obtaining the consent of the Rajahs to make fanams Curr^t^. and their large promises of encreaseing their Pepper Plantations which will

be both acceptable services to the Company and for fanams wee will send you a plentifull supply as soon as we receive silver from England, and you must be sure to severely punish those you find counterfitting the same.

8. Wee have perus'd your Letter from Bantall dated 1st. of July, which seems to prognosticate troubles in those parts, which we hope you timely prevented, hearing nothing thereof since that time and hope you have had to make good success ag[ainst Rajah] Quassa Dagons att Coras.

9. Wee observe the frequent differences that happen between the Sultans Rajahs, &c., which your prudence must reconcile or widon as itt tends to our masters interest and Security of their Affairs, but, remember lett itt be your greatest care to keep matters in a Ballance between them, so that upon any suddain revolution, you may make advantages thereof.

10. We want to hear of your finishing the Pagar, att Sillabar and to know whether itt answers ye. end expected.

11. Wee are glad to hear your men keep so well in health and hope the good provission you have made for their Lodging &c. will much contribute the continuance of itt.

12. Wee approve your entertaining Mr. John Manning a Factor and Thomas Upton a Writer and wish wee may see the good fruits thereof, for to us itt seems very surpriseing that since the arrivall of the Deputy Governour and Mr. Shaw there, we not had as much as one pair of books, notwithstanding the good assistance we have sent you hence, and to be plain with you without terming itt majesteriall, we are inform'd that when the Union came away there was not one line begun in the Generall Books to wch. we expect as punctuall an Answer as you were upon your oaths.

13. The encomium you give of Priaman is enducement enough to erect a settlement, but that can't be done without the Companys possitive orders, besides before any such thing be attempted we must be well informed of the Dutch pretention thereto.

14. Wee shall by all oppertunitys send you what slaves procureable which you must train up to such Trades you want them for, for tis impossible to perswade those handicrafts you desire to goe from hence.

15. Wee beleive the Company [d]o's hardly allow the Commander and officers their Charterparty Tonnage from Port to Port in India who we doubt not but will dispute that Pepper them to Ship off.

16. Wee wish the Company may see their prime cost for that Benjamin you bought of Capn. Renox, wch. should be a good Bargain by your allowing 15℔ Ct. Interest, wee paid Capt. Phrip on that Acct. as follows

6th Febry. 170½ Dollars 1776 : 3 : 01.
16 Ditto 170⅔ Dollars 1011 : 3 : 01.

both which sums being the amt. you mention of 2788 : 3 : but we left the interest to be adjusted with him by your Selves, conceiveing we cannot answer to the Company paying such extravagant Interest and order you never to doe the like for the future.

17. Wee observe what you write of Mr. John Davis your Surgeon, who came thither with the expedition Sloop on 21st of December, haveing calld att Atcheen where he sold Pepper amts. to Pags. 258 : 34 . 3 which is paid into the Companys Cash here, and since has deliver'd us a Petition coppy of which comes inclos'd, setting forth the reasons, for his being forced to take such a dangerous course to procure his Liberty, and you yourselves say he was discharg'd the service, if so why did you not permitt him to come away as he desired, which you not only refused him, but forbid all people to Dyett him, this and a great deal more is not only said by him, but confirm'd to us by all people that come from your parts, oppression and tyrany Generally makes men desperate and the ill Consequences of itt are to be imputed to those who give occasion for the same, which if Common [fa]me is to be credited, [is never] practiced in your Government.

18. Wee paid your Bills amounting to Dollars 1669 as advised in yours of y^e^. 6^th^. July 1702 and shall creditt your place for what you paid Cap^t^. Kenton his Charterparty Account.

19. Yours Dated 13^th^. January 170$\frac{2}{3}$ ℔ Sloop Sumatra wee rec^d^. the 9^th^. of May last, with all pap^rs^. according to List.

20. Wee shall as before mention'd send you the rupees and fanams desired as soon as the Company Supplys us with Silver, and Pillar Doll^rs^. if Mexico are not procureable.

21. Wee have perus'd Cap^t^. Phrips Papers in relation to Treebanng which we will remitt to the Company who can only give answer to itt for we shall not encrease their Settlements without their possitive order.

22. Wee were glad to hear you gave so seasonable a dispatch to the Hampshire and that she went a full ship, w^ch^. God send to arrive in safty.

23. Wee dont well understand your removeing Cap^t^. John Vernon who haveing been brought up to writeing busieness might have assisted att his leisure time in the Books, but we beleive his removeing was more to gratifie some private end then promote the Comp^as^. Interest, besides where you have so few private Sentinells you Should have fewer officers and we should think a Leivtenant with a serjeant or two wo^d^. be sufficient without being att y^e^. Charge of an Ensign. Your Answer about the age of Pepper is Satisfactory to us, and suppose twill be to y^e^. Company who orderd the same.

24. Wee agree that M^r^. Thom^s^. Graves have the same encouragement, as accustomary to writers who goe from this Place.

25. A Rich Soyl must of course produce good grass and some of that must run to Seed, but if itt [is] as you say not procu[rea]ble wee must get itt some where else, as allsoe the Java Horses which we are told are to be bought Cheap att Bantall and those parts.

26. Wee are still of the same opinion that two or three monopolize the Trade of your place, w^ch^. is by all oppertunitys confirm'd to us.

27. Notwithstanding theris no likelyhood of Warr with Portugall with the think fifty Buggesses will be of service here and Fort S^t^. David, but of this wee will consider and write you our further resolution thereon hereafter.

28. Wee take notice of what you write for your Vindication in drawing of Bills, which wee think does not carry that weight with itt as you seem to lay on itt, The Company is desirous the Trade of the place should be encourag'd but not by the Dep^ty^. Gov^r^. and Councill of Bencoolen to take to themselves what they please out of their Cash att Fort S^t^. George and we are sure their intention is, that you should draw no more bills on this place then what is absolutely necessary for the carrying on their affairs for suppose you meet with any Dutch Bargains or others to the amount of twenty or thirty thousand Dollars and they want bills hither to be paid for the same which you draw, and when they come hither wee are out of Cash, must the Company take up that mony att interest to carry on other peoples Trade, we think not, and therefore for the future enjoin to draw no bills on us but what are absolutely necessary as before directed, and before such bills are given lett the mony be Actually paid into the Companys Cash.

29. Tis very Strange you should receive for goods sold only fanams and Copper Cash, and that the Country people should not in all this time be brought to Barter [their Pep]per for such goods as are vendible in the country and they want, thô you are please to observe that the Company has not hitherto prohibited the drawing of Bills yett wee must tell you that they very much admire to see such Legeons come from you yearly for some time past, considering the great supply you have had from them.

30. Wee observe yo[ur Bu]tchar with the many duppatys and Proateens about the promoteing the Pepper Plantations concerning which wee see you have wrote fully to the Company as allsoe about the White Pepper.

31. Wee wish carcop may answer your Expectation as to the produce of Pepper.

32. Wee beleive the Mallays a lazy people and will not trouble themselves further then just to provide themselves from hand to mouth, we should be glad to hear that our own people are not infected by them who we think in such a Country should easily be able to raise sufficient for their own Subsistance, and not labour under such difficultys for provission for their own Table which we find in your Paymasters Acc^{ts}. stands the Company in more then itt does in this place, were there's hardly a blade of grass to be seen.

33. Wee order that you remitt y^{e}. Effects of M^{r}. John Davis to us by bill the first oppertunity and his Acc^{t}. with itt.

34. Wee have paid your severall Bills advised of yours of the 30th January 170$\frac{2}{3}$ amount^{s}. to Doll^{rs}. 8741 : 3 : 1.

35. Wee observe what Course you took in supplying the Bencoolen Merchant with Pepper who to this day we hear nothing off.

36. Padre Fre Antonio shall be sure to have our Countenance to incourage single and married people to transport themselves to your place on the terms desired and accordingly wee have wrote to y^{e}. President and Councill of Bengall and when he arrives shall [pay] his Bill.

37. Yours dated the 6th March last wee rèc^{d}. ℔ Ship Union who arriv'd here the 11th June laden wth. Pepper which was so very fou'l that when it was garbled, itt made but 300 Candy, which wee paid them for According to the Companys order, who Contrary to all advice saild hence the 10th. July for China notwithstanding the news we had Pyratts which a ship of this Port calld the Pembrook Friggatt brought from Mayotta, where they mett them as ℔ M^{r}. Fenwick &c^{a}. Narrative inclos'd, for which reason wee laid by all our Ships of this Port bound through the Straits of Mallacca.

38. Your Bills advised of by the aforesaid Ship Am^{ts}. to Dollars 2654 : 1 are Accordingly paid.

39. Wee hear from all People that come from Bantall of the insolent behaviour of Scott and Kingsley towards their Cheif M^{r}. Eyton besides in all other respects they lived more like beasts then Christians so that upon receipt of this wee order them to be turn'd out of the Companys service and sent hither by the first shipping or if there be no inconveniences by itt, you make them serve as souldiers upon your place.

40. Wee have perus'd M^{r}. Eytons Letter to you of the 20th Feb^{ry}. last, and your Generall Letter ℔ M^{r}. Bugden when went to Bantall, and since you had such large experience of M^{r}. Eytons ability and fidelity in those parts, where he was allways so well receiv'd and esteemd by the Country people you should have continued him in his Employ and removed those who [disturbed] his quiett and y^{e}. Comp^{as}. affairs, Thô we hope M^{r}. Bugden will apply himself to the understanding the customs of the Country, and the humour of the people and whereby to prosecute the Company's Interest.

41. Yours of the 30th of March with all papers according to List wee receiv'd ℔ Queen Ann Ketch the 30th of June who fell in with Vizagapatam and is there to this day.

42. Wee have perus'd your orders to Cap^{t}. Collier on the Sarum, which ship for want of pepper you have sent to Nayas in which we hope he'l meet good success and wish you had Employ'd M^{r}. Frith whose long experience in the Country might have much contributed thereto thô Cap^{t}. Collier we take to be a very Sensible and industrious man who wee hope will give a good Acc^{t}. on his returne on that affair.

43. Wee approve of your takeing in John Harris a Writer, but can't tell what you mean by takeing in Mr. Robert Coast to fill up your Vacancy in the Councill when you never had but Four and have now that number without him, besides his deportment here was such that we could not send him over to you in any Employ, nor can we think itt consists with y^{e}. Companys interest or Honour

to have such a person of Councill in any of y^r^. Settlements, his crimes here was that he was very lavish of what he had gott in your parts, besides he liv'd so Sottish a life more like a Beast then a man, of this perhaps he may be reclaim'd, if so you may give him incouragement according to his merritt.

44. By the ship or Vessell of the Companys wee shall supply you with gun Powder and what else we can spare you of the List you formerly sent thô we hope in a great measure your necessitys for the ℔sent have been Supply'd by the John and Mary and Glocester [. . . w^ch^.] wee rec^d^. and forwarded [the] other three as directed and doubt not but you will follow the Companys orders adverting to their affairs and particularly the mannagers orders relateing to your Acc^ts^. &c. as therein Directed, w^ch^. have been sent to our Subordinations, who have Stated some querys thereon which have been answer'd as ℔ Coppy thereof inclos'd and may some Direction to you in that matter.

45. Twas good news to hear that y^e^. Loyall Cook was well att the Cape thô very sad news y^t^. of the report of the Bedford which we give no great Credit to, hopeing that she winter'd att S^t^. Lawrence, or gott about the Cape to S^t^. Helena, and there lye for the next Convoy.

46. Wee did hope by this y^e^. Glocester would have bin here, who we would have returned to you with some Petre Bales and redwood, but wee beleive now wee may give over expecting her.

47. Tis very strange y^e^. Company sent you no more Souldiers on this Ship, knowing they have so few here, by the first Ship or Vessell of the Companys wee shall send you what Porteguez are willing to come but shall not be able to spare any Europeans.

48. Your Bills advised of in this Letter Amounting to Dollars 631: 2 are paid.

49. We rec^d^. severall Letters from Bantall which we have now answerd and here send you a Coppy thereof.

50. Your being so unaccountable behind hand in your Acc^ts^. still sticks in our Stomacks, your excuse for which is Mr. Shaws indisposition but then why does not the Dep^ty^. Gov^r^. take care of them or see that some other of the Council doe itt and if M^r^. Shaw be so sickly pray who Acts as Storekeeper for him which Employ we heever knew before belong'd to a second where there was others [in] Councill, [the Dep^ty^: Gov^r^: & others] of Councill here knows that the second of all Factorys keeps the Books, the third the warehousekeeper, the fourth Paymaster and the fifth and eldest Factor of Stores, and a carefull sober young man Steward, and wee would have y^e^. same practis'd by you and all their Acc^ts^. read in Consultation monthly, which wee find frequently omitted and some times four five and six months read together which for y^e^. future pray lett those faults be mended.

51. M^r^. Marshall who was then Paymast^r^: and his assistant avers that more care could not be taken in putting up those Stores ℔ Hampshire and beleives if there was any wanting, they were taken out aboard a Ship, or by some Servants in your Godowns, one of the two Slaves mention'd in the aforesaid Invoice was sent upon the S^t^. George Ketch and y^e^. other was return'd to the Choultry just upon going off and some time after was releas'd, and the Error in y^e^. Fort S^t^. David Goods was rectifi'd in our Generall Books.

52. Finding in your Consultation Books sixty Dollars paid out of Cash, for false fanams calls to our memory a Souldier that was dedected here for makeing of false fanams who after being punish't for the same was sent to your place, his name Barnadus Farce, as we remember him an Italian, who is not unlikely to be the same person that makes those false fanams, so that on receipt of this, you will on the Acc^t^. we now give you of him mannage matters, so that if he be guilty to detect him therein.

53. Since writeing the foregoing we have consider'd the uncertainty of this Warr ending dureing which time wee can expect our masters to send us out but

few Souldiers, so that if Buggesses are procureable and the Sarum be with you or any other ship to transport them hither wee would have you send us fifty besides their officers, who shall have the Command of them, and would have you agree with them to stay here five years certain, when if n[eeding to] returne itt shall be [at the] Companys charge Lett both the officers and souldiers be of the best sort, young brisk fellows, and as sightly men as you can procure amongst them, and not one old or Decriped, and send with them as full a relation as you can of their temper and Constitution of their Government amongst them so that here may be nothing done that may justly disgust them.

54. This comes by the Adventure Briggantine Henry Wyatt Master, who has taken in part of her Cargoe att S^{t}. Thoma and Pollicatt and wee not knowing what it is cannot distinguish itt from what he has taken in here, which paid the Companys Custom, so that if he lands any part thereof att Bencoolen or Bantall that matter must be decided by Oath or else he must pay the Companys Duties, and accordingly we have wrote the Chief and Councill att Bantall.

30 September.

Since writeing the foregoing wee have reinstated M^{r}. Nathan^{ll}: Eyton in the Cheifship of Bantall as ℔ the inclos'd Duplicate of our letter to them this day.

55. Wee are advis'd from Bengall of the arrivall of the Bencoolen there, who was in a very miserable condition so that the ship and Pepper were Sold there, Cap^{t}. Dixon y^{e}. Padre and Sev^{ll}. others Dyed in the passage. Wee are

Yours of 5th Aprill with Coppy of 25th Feb^{ry}. last wee rec^{d}. ℔ Ship Union who arrivd here the 11th. June but to this day we hear nothing of the Bencoolen.

Wee observe how troubles have threatned, and your deligence in diverting them, such small mortars as you write for we have none to Spare out of this Garrison, but we see the Deputy Governour &c att Bencoolen have wrote for them to the Company by Ship Hampshire.

Wee hope and desire you will persist in incourageing the Pepper Plantations, and discourage the Cotton trade since tis so prejudiciall to the planting of pepper.

---

* Letter No. 59 appears after Letter No. 57 in the original volume.

Wee hope Cap^{t}. Collier will succeed in this Voyage to Nayas, and thereby supply you with Slaves, which are not procureable on this Coast nor Bengall.

Your Bills advised of in y^{e}. forementiou'd Letter Amounting to Dollars 3300, are paid Except that of Padre Fre Ant^{o}. of 350.

Wee have been advis'd from York Fort the Occassion of Mr. Bugdens being sent to your place and cannot but resent the insolences of Kingsly and Scott to their Chief who wee possitively order you to send to Bencoolen or this place as an oppertunity for w^{ch}. shall happen first.

Wee are glad to hear the Country continues in peace about you but for makeing any new Settlement it is not to be done without the Companys Possitive order.

Wee Expect you performe your promise in improveing your new Settlement and you see the Company is willing to be att Charge to make commodious Building for their People but you must take care not to be Extravagant therein.

Wee wish M^{r}. Frith had been sent on the Sarum to Nayas, but for takeing him into the Service we must deferr the Consideration thereof till the arrivall of the Ships we daily Expect, we all look upon him to be well quallifi'd and have a regard for him.

Wee have paid your Bill for Doll^{rs}. 1660 : 3 but order for y^{e}. future you draw no Bills upon us but such as are absolutely necessary for Carrying on the Companys affairs and in your next lett us know what peices of $\frac{8}{8}$ are paid into the Companys Cash or what other coin for Acc^{t}. of these Bills drawn.

Yours of 15 Aprill ℔ Queen Ann Ketch we rec^{d}. the 30th June from Vizagapatam where she fell in.

Wee have perus'd the Letters and affidavids relateing to Kingsly and Scotts behaviour towards their Cheife [by which they] Appear to be [such]vile Persons, that wee chuse rather to confirm then alienate our orders for their being turn'd out of the Companys Service and sent to Bencoolen or hither, for itt Consists neither with the Companys Hon^{r}. nor Interest to continue such miscreants in their Employ.

Your two Bills for 268 Ryalls advis'd in the forementiou'd Letter where accordingly paid.

Wee here send you what few medicines we could spare out of this Garrison and recommend to you to putt in execution our following directions.

TO THE S^{R}. JOHN GAYER
GENERALL FOR AFFAIRS OF THE R^{T}. HON^{BLE}.
ENGLISH EAST INDIA COMPANY &C^{A}. COUNCILL IN SURRATT.

HON^{BLE}. S^{R}. &C^{A}.

Since wee wrote you last which was 20 July ℔ Ship Howland wee rec^{d}. yours of the 19th June y^{e}. 10th. of past month, and yours of the 7th the primo Instant, Via Metchlapatam under Covert of the new Companys Pacquett, with all papers According to List.

Wee shall observe the Contents of the R^{t}. Hon^{ble}. Companys Letter, and from the Court of Mannagers and shall in all respects Act accordingly.

Wee rec^{d}. the Europe News by the Regard and thank you for itt.

As you [wrote S^{r}. Nicholas] Waite &c^{a}. Councill so we did here their Presid^{t}. and Councill at Metchlapatam who return'd the answer as S^{r}. Nicholas.

By that time this can come to you we suppose the Katherin Cap^{t}. Jenifer Commander will be arriv'd wth. you from Bengall and your Ship Prosperous from China from whom you will have all the news of Amoy for we have none nor have Wee had any Letter from M^{r}. Dolbin or any one in the Ship since they were outward bound from Mallacca.

The Howland after she went from hence call'd att Fort S^{t}. David where she staid four dayes but for what we know not.

This comes by Cap^{t}. Gostlin Commander of Ship Charlton who has taken in part of his Cargoe att S^{t}. Thoma and we not knowing what it is, cannot distinguish itt from what he has taken here which paid the Companys Custom, so that if he lands any part thereof att Bombay, that matter must be decided by his oath or else he must pay the Companys Duties and accordingly we have wrote the Dep^{ty}. Gov^{r}. and Councill att Bombay.

By a Seperate Stock Ship that's arriv'd att Batavia, tis reported that when they left England there was designed for this Coast & Bay the Tavestock, Dutchess and Sommers, but to this day we hear nothing off them, nor is there any news since we wrote you last.

The Colchester arriv'd here from Persia y^{e}. 17th August and brought us the Horses, we wrote for, one of which dyed aboard, but whereas we wrote for one hundred Chests of wine they sent us but thirty five, which is a little hard considering M^{r}. Bruce sold some Hundred Chests to ℔ticular persons and itt is a great ease to the Company's Charge to have wine thence att Thirty abasses a Chest, w^{ch}. if bought here stands them in Nine and Ten Pag^{s}. so that we desire

your Hon^{r}. &c will be pleas'd to give your [. . .] place is subordinate to y^{e}. Agent &c there, to supply us with what we write for on the Companys Account and that itt be the best of their sorts.

What wee fear'd is come to pass for th[em]. M^{r}. Bruce has kept Cap^{t}. Rouse's effects and sent by the Ship no manner of Account thereof.

And however itt happens y^{e}. wine from Persia is not near so good as formerly, the bottles much smaller and very often come out one or two Bottles short in tale in a Chest. Wee are

To the R^r. Worshipfull [Edw^d. O]wen Esq^r.
Agent for affairs of the R^r. Hon^ble.
English East India Company &c. Councill in Ispahawn.

S^r.

Our last to you was the 4^th and 5^th. of December 1702 since which wee have rec^d. yours of the 23 of Aprill last from Ispahawn by Ship Colchester who arriv'd here the 17^th of last month, the answer M^r. Bruce &c. att Gombroon Justifies the said Bruce in detaining Cap^t. Lamberts mony as we advised, and to show us that they think themselves in y^e. right they have done the same by Cap^t. Rouse, so that we shall only advise the Persons prejudiced thereby and lett them take their remedy which may chance to convince them of their Error and unfair dealing.

The Stores &c. wee rec^d. ℔ Ship Colchester except our quantity of wine for that we wrote for one hundred Chests, and but thirty five sent, which cannot be computed to the want of wine, for that M^r. Bruce sold some hundreds of Chests to particular persons, besides of late there's not only great Complaint of the Badness of your Persia wine, but allsoe against the smallness of the bottles to what they were formerly, and many of them want one or two bottles in a Chest, one of the Horses dyed in y^e. passage by receiveing some mischief in Shipping off.

It tends much to the Companys advantage by lessening their charge here, to have Horses Wine &c. sent as oppertunity presents on their own Ships hither, therefore desire you'l yearly send to this place what we desire as ℔ List inclos'd, and we have made the same request to y^e. Generall and Councill at Surratt to confirm the same, but since we have no Ships arriv'd yett from Europe, we are afraid there will be hardly any from Bengall to your Port, so Can't expect Wine &c. without you procure freight for the sa[me We ad]visd in that of y^e. 4^th of Dec^r. of our drawing on you a Bill for ten thousand three hundred and five Rupees, which we rec^d. here of the Kings Buxie, for which wee gave him first and second bills, one of which he dispatch'd by his Servant overland to Surratt, intending thence for Persia to bring the bill, and receive the mony but he hearing nothing of him, he's affraid he's miscarry'd in the Way so sent to us for a third bill which we have given him, which wee desire you to Comply with and redraw itt on us by Ships bound to this Port as formerly advis'd.

They wrote us from Gombroon y^t. M^r. Harbins Acc^t. was remitted to Surrat which they knew not whether he had cleard it, the clause of their Letter concerning that matter wee sent to Bengall, Poor man dyed in his Voyage hither on the London.

S^rs. Wee heartly thank you for the good news you sent us, and desire your continuance itt, remitting to us what Europe news you hear.

There will be this year from Bengall a Ship called the Humphry and Charles 200 Tonn whereof Mess^rs. Fleetwood and Whistler are Supra Cargoes, belonging Cheifly to the Presid^t. & Councill of this place to whom we request your particular favour, and assistance, which shall on all occassions be acknowledged by us who wish you health and prosperity and are

Yours of the 10 Aprill last we rec^{d}. ℔ Ship London who arriv'd here the 22^{d}. of May and yours of the 30th June wee rec^{d}. ℔ Ship Colchester who arrivd here the 17th. August.

The two Horses ℔ Phœnix were and doe continue as we represented them to you, and whereas wee shall allways desire six Horses yearly when any of our Companys Ships come to your Port, so itt would not be amiss to buy up two or three good Horses as oppertunity presents, tho' the Company be att the Charge of keeping of them till a conveniencecy offers of freighting them hither.

As to what you write about Cap^{t}. Lamberts busieness wee can say no more than what allready wrote you, and are still in the opinion that M^{r}. Bruce ought to have retained Cap^{t}. Lamberts and Cap^{t}. Rouses upon the particular Ships they belonged to, and whereas he has done otherwise we think itt very unfair for that ill consequences will attend itt, on Acco^{t}. of those that have a right to itt, or M^{r}. Bruce who has detaind itt, and for Cap^{t}. Rouses widdow we beleive she's undon by itt.

The [*a few words lost*] of for ten thousand three hundred and five Rupees, we believe is not come to your hands for that few days past the Kings Buxie desired of us a third bill haveing given but two before one of w^{ch}. he had sent overland to Surratt, but hearing nothing of itt's arrivall he's affraid itt has miscarry'd, so when either of the three Bills is presented to you we desire you make due paym^{t}. and redraw itt as formerly advisd, concerning w^{ch}. wee have allsoe wrote Agent Owen.

Wee thank you for the news papers and desire you will Continue sending the same to us as oppertunity offers.

When you proceed so rigorously against a Person as to send him a prisoner on board ship we mean Charles Attkins, without so much as letting him gett necessarys or collect what small Effects he had in, you Should have drawn up the Charge against him upon oath, we beleive him to be a wild young fellow but upon his promiseing great amendment we have made him Surgeon at Fort S^{t}. David.

Wee rec^{d}. the Carpets sent by y^{e}. London.

M^{r}. Harbin dyed in the Voyage hither and the clause in your Letter relateing to him we have remitted to Bengall.

Wee here inclose a List of what we desire yearly to be sent to this Presidency on the Companys Acc^{t}. if any Company Ship presents but if not all or as much as you can gett freight for itt, on any private Ship bound hither.

Wee rec^{d}. what you sent on y^{e}. Colchester, except one of the Horses that dyed on board w^{ch}. was the paceing Horse which the Commander says rec^{d}. some prejudice in Shipping off. and hope the others will prove tollerable good, tho' much gall'd and abus'd in the Voyage, and 13 Chests of Rosewater omitted to be taken ashoar, which hope remain'd on board [*a few words lost*] Bengall about itt, not haveing the quantity of wine wrote for, is a disappointment to us and a great Charge to y^{e}. Company for y^{t}. we must buy itt before the year comes about and itt is very surpriseing to us that the Comp^{s}. can't have their quantity when ꝑticular persons can be Supplyd with whatever they want wee hope they will fare better for the future and that you will send us every thing y^{e} best of their Sorts, and wee must not omitt Acquainting you of the great complaints, not only against the badness of the wine but allsoe the Smallness of your Bottles to what they where formerly, and in some of your Chests for one two to three bottles wanting, your Rosewater likewise is very ordinary.

We are Sorry to hear there is no probability of releasing those poor & unfortunate Captives at Rustock but hope by the first Ship there will be some care taken thereof from England.

The Six thousand Shahees Cap^{t}. Reid rec^{d}. of you on his owners Acco^{t}. he has made itt good here. Wee are

To M^{r}. Nathan^{ll}. Eyton
Cheif &c Councill att Bantall

S^{rs}.

Since the concludeing our Generall letter dated 23^{d} Inst. directed to M^{r}. Bugden &c Councill, we have maturely considerd that whereas your Port is Sittuated in a part of the Country that produces great quantitys Pepper and capable of great improvement by encreasing their plantations, so consequently [they de]sire wellfare of itt, being of the greatest concern to our masters, and therefore itt requires an experient prudent man to be att the head of their affairs, who is well vers'd in the customs of the Country and humour of the people and we not only takeing from our own experience which is allso confirmd to us by all persons that come from thence That M^{r}. Nathaniell Eyton has the qualifications before mention'd, by his long resideing in that place who has laid done his Employ by reason of the insolences of two of his councill Scott and Kingsly and att present remains Second with an intention speedily to leave the place which we are under some apprihention that the Company will Suffer in their affairs in those parts, to prevent which we hereby reinstate the aforesaid Nathan^{ll}. Eyton in the Cheifship of Bantall requiring all persons both Civill and Military to regard him Accordingly & by vertue of this Letter we null and revoke all Commissions orders or Powers there has been formerly granted by the Dep^{ty}. Gov^{r}. and Councill of Bencoolen, that tends to the makeing any other person whatever Cheif of that place unless itt be by the R^{t}. Honble Comp^{as}. possitive order, wee allsoe appoint M^{r}. Bugden to remain Second, of which if he dislike we permitt him to return to his former post

att Bencoolen, and then M^r^. Vernon to be second in Councill otherwise M^r^. Vernon to be third, and in case M^r^. Bugden does return to Bencoolen we then desire the Dep^ty^. Gov^r^: and Councill of that place to send a prudent and Sober man to be third att Bantall.

Wee would not have M^r^. Bugden resent any thing of this alteration for whom we have a very good Esteem assureing him that nothing in our opinion makes M^r^. Eyton preferrable to him but his large Experience.

What [*a few words lost*] att all in the least Lessen your Subordination to Bencoolen therefore charge you by all oppertunity rem[itt] to y^m^. your Consultation[s] and Diarys to that very time Acc^t^. Cash, Paymast^rs^. Acc^t^., Warehousekeeper and Storekeeper which Acc^ts^. by the Companys order (which wee enjoyn you to follow) are to be read monthly in Councill and may lett us hear by your next that your Bookes are all made up and sent to Bencoolen.

It is our reiterated request and order that you heartily apply your Selves to y^e^. encreasing the Pepper Plantations, and retrenching all superfluous expences, and that you are very frugall in those that are unavoidable.

Wee observe you are about forty men in the Civill and Millitary, so that we dont see the urgent necessity there is of haveing distinct Principall officers for the latter, therefore itt wo^d^. save something if the Cheif be Leuitenant and M^r^. Vernon Ensign, and the principall officers, otherways to be but Serjeants, This we recommend to you to put in Execution as you find itt for the Companys Service.

A Duplicate of these Letters we have sent to Bencoolen for the Dep^ty^. Gov^r^. and Councill there to observe what therein containd.

Wee hourly expect the Expedition Sloop from Bengall, when we shall immediately dispatch her to you w^th^. Salt Petre Stores &c. Wee are

S^RS^.

Wee have rec^d^. yours of the 24^th^ 27, 29 of last month, If you please to take another reveiw of your Consultations and Letters in 1701 you'l find that Mollem was permitted to goe to Dowd Cawns Camp by The Presid^t^. and Councill here, att the intercession of the Dep^ty^. Gov^r^. and Councill of your place, who was to work matters so, as to keep Freindship between us and Dowd Cawn att the Expence of about 200 Pag^s^. but how comes this after clap is best known amongst your Selves, we being wholly ignorant thereof but of this we will write you more att large and the President will send Mollem his answer.

Wee Shall consider on y^e^. Acc^t^. of the Duties collected on Trade and then give you our Answer thereon.

Serjeant Trumball had leave to goe hence, but forgott to take his Certificate.

Wee find that the Letter from the Generall and Councill of Batavia is not directed to the Gov^{r}. and Councill as itt ought to have been, so that there is nothing more to be said of that matter, only that the orriginall ought to have ben att first sent us, seeing itt related to the Companys busieness.

Wee possitively orderd att the making the last Contract that the Contract brought in over and above the Contract before, should be inserted in that which now again confirm, and will not recede from itt. Therefore if they will abate twelve ℔ C^{t}. and you see you can bring them no more, wee would have you close with them and we [*a few words lost*] as you mention, lett them be oblig'd to bring in their Cloth by the last of January or sooner if possible upon the Madrass musters and the Species of goods to be in proportion to the last years Contract and if any augmented lett it be long Cloth and Sallampores, to this lett them give their yea or Nay immediatly, and with all expedition return us their answer If the Danes bring in their Cloth within your bounds purely for washing sake we think 2½ ℔ C^{t}. sufficient for the Custom. TO THE HON^{BLE}. JOHN BEARD ESQ^{R}.
PRESID^{T}. FOR AFFAIRS OF THE R^{T}. HON^{BLE}. ENGLISH EAST INDIA COMP^{A}.
IN BENGALL AND GOV^{R}. OF FORT WILLIAM &C. COUNCILL.

HON^{BLE}. S^{R}. &c^{A}.

Since our of the 16th & 27th of past month we have rec^{d}. yours of 30th Aug^{t}. by Sloop Greyhound who arrivd here the 27, with Bill of load^{g}. for what laden on her.

Att the time of M^{r}. Peachies decease which was in M^{r}. Dubois's house, who we then thought was Sufficient enough to answer what Effects left by M^{r}. Peachie being recommended to us by the Company to any Place of trust in or next the Councill besides as we wrote you before nobody did care to concern themselves with M^{r}. Peachies Effects nor doe we hear with any bodys but Companys Servants and had we designd to have taken care of them beleive we Should have found but little worth and as for what you say you have done about his Effects was not to be avoided you haveing long before Seiz^{d}. [*two lines lost*].

Wee doubt not but we Shall have good enough for the Tonnage that is att present on our hands, but every Ship requires more of Petre then her Charter-party proportion, so that had there been no other reason we must have sent the Colchester for Salt Petre and Stores, for of our 1600 bags, she would not require less then 1400, and the other must have remaind in Store for the Garrison so that what we wanted more Petre for was Cheifly for the Chambers Friggat, who when arr^{d}. must be immediatly dispatch'd.

Wee perceive the Expedition Sloop narrowly escaped being lost, we thought y^{e}. Pilots who are the Companys Servants had been obliged in the first place to take care of their Vessells for if itt be true what the Cap^{t}. writes Coppy of which we here inclose we think the Pilot lyable to make good the damage, and did he serve any other nation he would be fined to Boote we all took her here to be a good

Vessell and that she wanted only some Strengthning in her upper works we never expected she would Carry above five or Six hundred bags, and when she comes we intend her forthwith to the West Coast where a Vessell of her burthen is very necessary for the Comp^{as}. Service.

Wee rec^{d}. the Petre by both Vessells According to Invoice and Bill of loading y^{e}. freight of which might have been saved, since you know we resolved to send the Colchester.

The Dutch mannagement of their Affairs is very unaccountable at this time for they stick att no manner of writeing nor money to gain their present ends.

The Copper Sent by Cap^{t}. Harton on the Endeavour Briggantine was deliverd him by English weight 131 to the bagg and whatever itt comes out by [*one line lost*] [y]ou say the Bill of loading [Com]putes itt to the Candy and four of those bags makes a Candy.

You say you wish you had sent the 1000 Chests of Copper when you requested it, which long before was sold to a Merchant here who was to pay for itt as he fetch'd itt away but not Complying, was the occassion of our sending itt, nor had we then nor since any Allumger Pag^{s}. or other coin to Spare you, for what allready sent has so lessend the Stock of this place that we are now about takeing up mony att interest to Carry on the Companys affairs.

Wee cant but admire att y^{e}. Delatory proceedings of S^{r}. Edward Littleton.

Here has as yett been none of the new Companys People from Metchlapatam as directed by the mannagers orders to take Acc^{t}. of the dead Stock nor doe we hear they intend to come, our Acc^{ts}. are agoing on in the method yo^{rs}. are and hope they will be finisht to goe by the Jan^{ry}. Shipping.

The Glocester is not arrivd from the West Coast thô they possitively wrote us they would send her, The Stock the Comp^{a}. sent on her was twice what would purchase her a Cargoe of Pepper.

Wee think itt very unreasonable as well as ungratefull that Commanders of the Ships will not pay the Charge of getting the run away men, The order you have made to prevent those practices is very necessary espetially in this time of Warr.

Wee think itt not adviseable to freight any Salt Petre to the West Coast from your place by reason that we must once or twice a year send Vessells hence with men and Stores which we intend shall be the Companys and load on them Redwood and Salt Petre for that place.

20 October 1703

Since writeing the above we rec^{d}. yours of the [*a few words lost*] the 9th Instant ℔ Expedition Sloop who we dispatch'd to the West Coast on the 14th Instant with 150 bags of Petre and what stores else she could Carry, we rec^{d}. your Invoice Bill of loading &c Papers according to List.

The Sloop went hence with as much Copper as She Could carry and returned with salt Petre to that Amount in Tonnage.

Wee rec^{d}. no Bill of loading of Cap^{t}. Rouses nor is it mentiond in the List, when wee doe, we will Acc^{t}. with the Present Commander for what redwood wanting.

Wee think the Pilot that ought to have taken Charge of the Sloop should pay for the Chest of Copper, but you are the best Judges of that matter.

Tis very Strange S^{r}. Edward Littleton &c should be so delatory in negotiating their masters affairs, for as you say had that summ of mony been Coind and Invested to that advantage they might, none others makeing Investment, would have been a very good Article of Proffitt in their Acc^{ts}. if they have any, which their masters would have better approved off then Spending their time in Studying and writeing Scurrilous and Scandilous Letters.

Wee observe what you write about the Stones for the Chappell which we will procure for you as soon as possible.

Wee are Sorry for Mr. Lytton whose Concerns on the Sloop the Goor has taken care of till he gives orders about itt, and if he does any otherwaies than well, the Amt. shall be paid into the Companys Cash here.

Sr. Edward Littleton &c Councill Letter was, as you say itt was to you, very surprising to us, and we cant immagin what should be the Occassion of itt, unless he be now run Stark mad for that we have taken him to be crasie from his arrivall, for the truth of itt is they [*a few words lost*] disappointments expecting to have been the Conquerers, and now to be conquered and hardly yett see their doom, wee have return'd them an Answer to their impious and Scandilous Letter, which desire you will be pleasd to send them, coppy of which comes inclosd for your perusall and wee thank you for ye. Letter you wrote them in our Vindication.

No news yett of our Europe Shipping nor do we expect any since the Capt. of the Trumball Gally says they were but fitting out in Febry.

Mr. Poircer has addressed himself to us in behalf of the Orphans of Mr. Crook Complaining of great injustice done them by Harry Moor, who for some time has had the Towns of Mr. Crooks and will render no Acct. thereof, nor deliver them up with the Substantiall papers belonging thereto, which has been procur'd from ye. Government att the Charge of the Orphans, haveing paid no rent f[o]r many years past, we therefore think itt reasonable that you seize the aforesaid Harry Moor and send him hither by the first Ship to adjust his Accts. provided that you are not any ways Apprihensive of creating trouble to the Company affairs thereby, our last to you was the 16 and 27th of Septr. ℔ Ship Dolphin, Copy of which comes inclos'd, Wee are

S^ss^.

Wee Sufficiently Shew'd our resolution and inclinations to the due observeing our Companys and y^e^. Mannagers Commands of laying aside all Feuds and heats arriseing from the oppositeness of the interest wee Servd, by not takeing notice of your raveing and scur[r]illous Expressions of us in your Letter dated the 18^th^ Aprill 1703, to our Companys Gov^r^. and Councill of Fort William who have lately remitted us the Coppy of another Letter of yours dated 8^th^ past month, which we cannot omitt answering finding itt stuffed throughout, w^th^. so many impious and notorious fallsitys, wee know not what new matter occurd to you, that incullcated such base Suggestions of us, who here averr that M^r^. Lovells and Woolstons Acc^ts^. were never allowd of nor can they be ended till they are both together, and att this place from whence they were employed.

[The Government of myself] and likewise jointly with the Councill doe challenge all mankind to produce any order Particular or Generall that they ever gave that can be Construed or thought they designed the Blood of Woolstone and further averr we never heard of that bloody Expression here.

Then that twice there has been assassines hired, from w^ch^. he once narrowly Escaped to which we here delcare that we never gave our orders to any for the Seizing of Woolston but to our Cheifs att Metchlapatam M^r^. Focquett and after his death to M^r^. Frewen, on the former you took the liberty in past Letters to make your unjust reflections, tho' from our Experince and knowledge of them both, wee are Confident he that is dead and the other liveing, were and are men of such Hon^ble^. principles as to detest such Vile practices whilst those that pen'd and signed those infernall Suggestions, we beleive will Stick att nothing.

You likewise say that tis nothing of Wollstons Acc^t^. occassions our furious heat (as you call itt) but his not Consenting to the perpretateing a fram'd designe as horrible and wicked as ever was Contrivd, w^ch^. he over threw, to produce any particular or Generall orders from us unfitting to give or him or they to Execute had he been a person of Nicest Hon^r^. and Integrity, from whom we found the quite contrary and therefore 'tis very probable that not only one of us, but all have wished that our orders had been Executed.

If your beleif went with your pen why doe you Charge us so att random, as fools shoot their bolts (and desend to ꝑticulars besides Fort W^m^. is not so farr from you) and wee beleive will be nearer to you in a little time whither you might have sent Woolston with [*a few words lost*] English or Other evidence you had prepar'd and there to have proved before the Gov^r^. and Council, but a probability of one word of truth, in your Scandulous Letter, w^ch^. if Credited by those Gentlemen there itt would have carried some weight with itt, whereas now by all good men wherever seen, as 'tis pend twill be looked upon as the spurious Issue of mallicious brains (If any) and Contrivd by men of the Vilest principles.

Wee Commend your Tenderness in matter of blood, (tho' you have no Power to Shed any) which we hope proceeds from the dread you have of the ill consequences of itt, and the regard you have for the sixth Commandment, but had you had the like for the tenth you would not have suduced your neighbours Servant to betray your Masters Secrets, or have employd him till he cleared his Acc^ts^. whose guilt is what scares him from comeing hither to doe the same and not the dreadfull apprehention he has inculcated into you, who giveing credit thereto Share in his baseness.

And whereas you have presum'd to Arreign this Government not only in this Letter but allsoe in former with the worst of practices wee give you this

answer for a truth, and dare you to produce one man that has Sufferd here unjustly, in person or Estates or that Since this Gov^{r}. came who you term so bloody minded, that there has been a drop of blood Shed by y^{e}. Governour but on the Contrary mercyfull to a fault, and endangering our own wellfare.

Wee can't immagine the Occassion of your President [*a few words lost*] att us here, from the first time he hon^{d}. himself with a white Feather as weighty full out as the reason he can give for itt and att the Generall concern you were all under to see us wade through our troubles, when beseiged by the Governm^{t}. w^{ch}. was occassion'd doubtless, you know how, and if common fame may be credited, wished our distruction, or your Imps would never have dared to declare with that alacrity att Atcheen and Mallacca, that this place was distroyed, besides we are inform'd that itt has been your Presid^{ts}. Accustomary hopes and wishes to see the Old Comp^{a}. and their servants brought out and hewn to peices as King Agag was.

Wee must confess wee beleive your disapointments have been great, and that you have fallen very Short of makeing great Conquests you Expected, but Should that drive Such great Souls as yours to dispair, and putt you by your reason, for other wayes you would never have Charged the most innocent so unjustly with assassin blood thirsting, horrible, and wicked designs as ever was contrivd, which was very Surprizing to us and the more to see your hands to itt, otherways we should have guessed that itt had been pened by a Caball, in Newgate, Bridewell or Bedlam, and wee flatter ourselves your Masters will be of the same opinion.

Wee think itt not worth our while to insist longer on the Subject, but to lett you know that wee Expect M^{r}. Woolston to come hither and settle his Acc^{ts}. for itt can be done no where else, being in joint Commission with one that denies all who will likewise bee here in January [*a few words lost*] Duty but their obligation in regard to their promise when first entertaind and if you Convey him away or permitt him to goe home on your Shipping, before he has Cleard Acc^{ts}. with us, lett itt be to your Perrill and the ill consequences of itt, for as we have said before, wee cant beleive he is Scar'd from comeing hither by any apprehention, y^{t}. he is under, from hericanes Cockhouses or looseing his blood without redemption, but from a guilty conscience, which Charges them wth. the worst of crimes, but how can that be otherwise then justifi'd by you, when some sitt att your board guilty of the like. HON^{BLE}. S^{R}. &C^{A}.

Coppy of yours of th 9th October with that of the 24 Novemb^{r}. wee rec^{d}. the 5th Instant ℔ the Restoration, but admire what should become of the originall of that of the former.

Mr. Bruces detention of deceas'd Capts. Estates is very unaccountable Thô people now [*a few words lost*] not the Conduct as you may see by the arrivall of those Goods of Capt. Grantoms whose administrators, wee beleive grudged the Insurance, but had that Ship mett with any misfortune, then the Insurance wod. have been prudent mannagement and your Presidt. wod. have had thanks for the same and if the Wentworth arrived Safe you'l hear Capt. Saxes Adminstr[] had much rather you had sent Goods then Bills, thô we think Security prefferrable to uncertain Gratitude.

Wee observe what you write about the difficulty of getting Salt Petre and if itt still continues, wee know not what we shall doe for the Ships now come out, who Cheifly are sent for that Commodity.

Wee must own itt a great ommission wee did not advice of the receipt of the Armenians mony, for the freight of ye. Ship which was duly paid by Mr. Affleck after the Ship Saild hence the sum being 10857 : Pa 5 fa.

Wee perceive the price of Copper is Extraordy. fallen, but hope you'l make some Shift to provide sufficient quantity of Salt Petre for the Colchester, without Bartering yours for so low a rate.

Some time past as we advised you wee heard of the troubles att Surratt, by means of the Pyrats, which Suites with ye. Account Mr. Redshaw &cs. gives you from wch. we infer that 'tis very probable that 'twill not be long before we meet with fresh troubles from the Government.

[*A few words lost*] Colchester were [. . .] batterd in the Voyage in so much that they are not yett recoverd besides they are so heavy, dull, ill-Shap'd monsters not fitt for what you intend them, or otherwaies you may be sure, wee would have sent them you.

Wee have not yett mett with any Person desirous of sending mony into Bengall to lye att Interest, but as soon as wee doe shall advise thereof.

Wee have perus'd Sr. Edward Littletons &c. Letter to you and cant but admire att their weakness as well as baseness in asserting such notorious falsitys, we here send a short answer thereto with a flying for your perusall.

On the 14th Instant here arrivd the Tavestock who left England in May last in the Company with the Dutchess and Severall other Ships bound to China. The Tavestock and Dutchess were at Atcheen and departed thence the latter end of last month the Dutchess bound to your Port who hope before this will be Safely arrivd.

Wee here inclose [a] Pacquett for you from our old Masters, a Coppy of the sale of Goods which we are orderd to send you with a Coppy of Letter from both Secry. adviseing the arrivall att Barbadoes the Ships that winterd att Marritius which Capt. In Bengall they have laid asside both the Presid^{ts}. from being concern'd in the united Trade and have elected four of each Councill to negotiate that affair, the Cheif of each to take y^{e}. Chair alteratively but [*one line lost*].

The Stock brought out in this Ship Goods and mony is thirty one Thousand Pounds Ten of which is to be sent to y^{e}. Bay where we beleive their Stock is not much more and by what they write these two Ships seem to be sent out Cheifly for Salt Petre.

Upon receipt of this you are to repair on board your Ship, wind and weather permitting to weigh your Anchor and shape your Course for the speedy attaining the Road of Ballasore, where on your arrivall by the first opportunity you are to send our Packet to ffort William directed, To the Hono^{ble}. You are not unacquainted of the arrivall of a small Ship at Pollicherry from ffrance who advise of four more comeing out of considerable force bound thither, which wee fear is to true, so that it requires you not only to keep a good look out in your passage down, but likewise when you draw near the Road of Ballasore, for fear of ffrench Ships lying there, w^{ch}. if you should discover, & you think they

Yesterday wee dispatcht the Martha who intended to have sailed early this morning, but last night late came in Peons from Metchlepatam which brought us yours of the 9th and the 23d March 7th April & 19th May, and the Ship being still in the Road, wee have just time to return this answer wch. wee'l do more fully in our overland Letters the latter end of this month.

The Letter you intended us by the Dutches requires little or no answer, only wee are sorry she had not the Good luck to proceed to us.

The Mañagers ordered the Sallary of none here but their Governour & Council, as also at ffort St. David, copy of which wee here Inclose, and whereas the New Companys ffactors and writers Salary were more then the Old Companys, they order that what of the new Companys Servants were taken into the United Service their salary agreed for in England should be Continued to them till the Expiration of their Covenants, and then to be reduced to the Old Companys accustomary salary, and all salary to be paid in the Country, to such as were in their service from the 22d July 1702, as also to those that serve them for the future.

Your originall Letter by the Armenian Cossid never came to hand the purport of the Copy of which wee observe, and find that Captn. Raymond had boisterous weather to encounter with, who if he had happened to got out in the Condition the two Dutch Ships were, without an anchor as reported he would have found it very difficult to have dealt with this Coast at that time of year, you doubtless did well to protest, which his owners and him must answer at home.

The Gold sent on the Tavistock was weighed in the presence of severall here and 15 dwt. may be in the difference of the scales, Silver was not procureable here but at extraordinary rates, besides by our last years accounts of the sale of Gold, more especially Allumgeer Pagodas turned to a better acco. then at the price wee must have bought Silver or Rupees here, which was the reason wee sent you Gold.

Wee are in expectation of the small vessells you mention, who can run so near the Shore as to avoid the danger of an enemy more particularly the vessell wee lately wrote for to send to the Neptunes wreck.

The Mannagers writt us that we are to Lade 200 Tons of Goods on the Tavistock and that the Dutches is to be dispatched from Bengall.

Wee doubt not but the Scipio has brought you out some Physick, which is the reason wee send you none, but if it should so happen that they have not, there is a Chest Doctr. Bulkly acquaints us that the Doctors matte of this Ship has, to whom he has wrote, if you should have occasion for one, to offer you the refusall.

You say you design to Dispatch the Tavistock in November which is Generally a Tempesteous month, and whereas the Mannagers have given no directions to the Contrary, wee think it emplys that they leave it to discretion to dispatch their ships so that they may be a security one to another.

Wee are heartily glad to hear that your Government is so quiet, as ours also is, and wish they may both Continue so, and all other places where the Company have Settlements. We are

S^{RS}.

Yesterday wee recd both yours of y^{e}. Ult^{o}. past month and 2^{d} Instant, with the Latter the Generall Books, as mentioned, and desire you to send the Duplicate of Letter B as you promise.

'Twas a poor thing that Cap^{tn}. Gostlin refused to bring those Prisoners, and they would esteem it very unkind should any of them be refused so inconsiderable a thing on any of the Companys Ships, you may send them by boat as you desire.

You advise of the receipt of the 10000 Pagodas, and the 7th at night wee are resolved to send you Ten Thousand Pagodas more, and accordingly wee wo^{d}. have you send your Peons to meet them at Conimeer.

Wee observe what you write of your Merchants that you are not able to prevail wth. them to bring in Goods at the same prizes as the last Contract time Runs away, and delays on this account may be of the worst of Consequence, not only in bringing our Masters Ships on Demorage but deprive them of their expected returns, which is of the greatest advantage to them, considering which wee have this day come to the following result, to leave it wholy to you to conclude the Contract on the best terms you can, remembering not only the Companys Interest, is concerned but likewise your Credit, and you must hasten them the bringing in the Goods with all expedition, and what you advance above what wee formerly ordered, wee hope you will do as you say, regain it in the exact sorting thereof.

You well know what Tonnage wee have upon our hands to dispatch in January, and that the Loss of the Neptune has, very much disabled us from provideing that quantity, therefore wee must lessen the proportion ordered of fine Goods and Increase the Course, besides the Company have ordered that the Longcloth should be midling fine which wee take to be abo^{t}. 50 Pag^{s}. ℔ Corge, and are resolved not to exceed sixty, and for the muster of Sallampores, send it us with all expedition as formerly wrote you.

We will send you what washers wee can procure very speedily.

Wee have rec̃d your Bill payable to Somiah for Pagodas 491·18 which wee shall duely comply with, but for the two notes mentioned for 56 Pagodas wee have not rec̃d.

Wee wait for your muster of Neckcloths.

In Mahomud Tyres Ship (who stays two or three days at Covelong for salt) wee sent you two Chests of Medicines and a Chest of Factors Provisions, for w^ch^. Invoice and receipt comes Inclosed Wee are

COUNCIL AT VIZAGAPATAM.

Wee reĉd both yours of the 4^th^ & 13^th^ past month, and with the Latter the Bengall Packets, which were speedily forwarded by M^r^. Tillard at Metchlep^m^. as you desired.

Wee reĉd your musters of Longcloth and Sallampores, with the prizes fixed thereto, but as you say they are the fagg end of the Cloth, and that you keep the better part for Musters by you, we cannot so well make a Judgement of it, but must leave it to you, so desire you'l make the Companys Investment this year in those sorts, chargeing you to take great care in the Sorting, Washing and Packing, and you must send us up the Musters by which you sort the Cloth, that they may goe home with ours here to y^e^. Comp^a^.

By the Musters the cloth appears to be something Course, which if the Merchants will help by bringing in of a little finer you may consider them accordingly.

The Cloth you Pack up brown must be the best, and free from Spotts, and well dryed, otherwise 'twill milldue in the Voyage.

Wee reĉd your Generall Books w^ch^. as soon as overhalled by Mr. Fraser the Accomptant wee shall acquaint you the Errors therein.

Wee paid your Bill for Pag^{s}. 300 and 800 Rupees to the President.

Inclosed comes Copy of our last dated 15th and 26th past month wth. Invoice & 2^{d}. Bill of Loading for what sent you on the S^{t}. George Friggat.

Wee depend upon your promises of being thrifty in your expences which will be very acceptable service to the Company.

Wee wonder how you come to make that mistake of bringing the Old Comp^{as}. Lead which lay for sale into the Dead Stock, besides the Presid^{t}. & Council say that they ordered you above a twelve month agoe to send it up on the Old Comp^{as}. Acco^{t}. Wee are

Wee have rec̃d yours of ye. 24th & 27th past month, and with the former came the Prisoner that Murthered ffrancisco de Pina, as also ye. Witnesses, who

wee much wondered to see in Irons, we shall speedily bring him to his Tryall and acquaint you with the event, Serjeant Brookes with the Corporall &c^{a}. went hence a day or two agoe upon a Boat dureing their stay here the Paymaster Lent them Pag^{s}. 1. 18 acco^{t}. of w^{ch}. comes inclosed, Wee have also sent you Serjeant Brannock, who wee desire you to entertain as so, and if you send a Serjeant hither he shall be in his roome, the occasion of his leaveing this place was the frequent quarrels with his Wife, the Gov^{r}. has also returned you Serjeant De bane, who he would not permitt to remain here, haveing to the last degree disobliged him, by cutting down some Trees, w^{ch}. adjoined to the Comp^{as}. Garden thô he strictly charged him severall times tc the Contrary, by w^{ch}. y^{e}. Garden is very much defaced.

We rêcd the Duplicate of the Generall Books Letter B and copy of those Letter L belonging to our Old Masters.

You advise the 10000 Pagodas gott safe to you and before this month is out, shall send you such another supply or more if possible, thô at this time wee have not above 1000 Pag^{s}. in Cash, wee here Inclose two Bills of Exchange of Sunca Ramas on Poll Chittee for 2000 Pag^{s}. which pray receive and Credit us for the same.

Wee have nothing more to say relateing to the Contract, but desire you to hasten the bringing of it in, and see that they are such goods in all respects as may be to the satisfaction of our Masters.

Few or none of those washers that were sent hence, on the Companys or any other Acco^{t}. ever returned, and those that remained here, for want of business of Late are dwindled to few in Number, so that wee fear there is no probabillity of sending you washers from hence, but hope you'l procure them at the adjacent places you mention.

Wee think it not adviseable to make up any brown Cloth till at last, and then what can't be wash't must be sent brown, when you must take care that it be clean from spotts and well Packed.

The Governour of Trincombar advised y^{e}. Presid^{t}. of y^{e}. receipt of our Europe Packets, who has promised his care therein.

Wee have Complyed with y^{e}. Paym^{t}. of your Bill for 2500 Pag^{s}. to the President and Council for the Seperate Affairs of the Old Comp^{a}.

Wee are glad to hear your Merchants have brought in so much of the Contract of Twenty Thousand Pagodas, and hope by this 'tis compleated.

The Gov^{r}. hears that the ffrench Ship at Pollicherry is put to sea well mann'd, wee wish that none of our Atcheen and Mallacca Ships may meet with them.

Wee have agreed here to fill up your Council with M^{r}. Wee have done our utmost to procure washers here, but all to no purpose.

Wee acquiece in your Packing up Brown Cloth, which is clean and free from spotts, as it comes in, part of which may be washt at last, if we have time but be sure to see it well dryed to prevent mildewing and Packed with the screws.

The Sloop and small Ship sailed from Pollicherry is most certainly gone to look out for the Ships they expected, and the Ship is double manned.

Wee observe what you write of M^r. Vicess^s. Griffith, whose indisposition you say, will not permitt his attending the Warehouse as required, The Companys Affairs must not suffer for the disabillitys of any one, Lett it be of what nature it will, therefore you had best Continue M^r. Pray in your next send us an Account of what cloth is come in, and the quantity of Bales. Wee are

Gentlemen

Our last to you was dated the 18^th. Aug^st. copy of which comes Inclosed, since which wee have recd yours of the 28^th. July, w^th. all papers according to List on the 19^th. past month.

Wee are sorry for the Great mortallity in the Men of Warr, as well as for the severall Letters you mention, wrott the Government, the ill effects of which wee fear you all feal before this Time.

Wee observe what demands are made by the Gov^mt. on the Old Company, w^ch. we are sorry to hear, but hope they are not spurr'd on theirto by their own country men, where that burthen will light at last a little time will show, wee can say little to the proceedings of the men of Warr, hopeing he will not exceed his comission in his Actions, but whereas he was wrote bigg to the Government, and if at last should goe away without setting S^r. John Gayer at Liberty, he will then Leave the English Interest in a much worse condition then he found it.

Wee are likewise of your opinion that many opportunityes have been Lett slip, when advantagious adjustments might have been made of those demands.

Wee wish the Lasckarree who was so near Bombay may not be ill neighbours to it, and for what you write about the two Messengers sent to Goa, concerning the two Arrab Ships, we hear nothing of it from thence.

Your early advices to us of all matters of importance, will be great service to the Company and acceptable to us, and we shall be sure to do the like from hence.

Your Packet to the Court of Managers shall be forwarded by the first ship from hence.

Wee have had advices of the safe arrivall at Batavia of all the China Ships, and wish wee could hear of the same of the Westmoreland with you.

We had sooner wrote you but that wee deferr'd it some days in expectation of the arrivall of the ffrench Ships at Pollicherry, for want of which they seem to be under some consternation, yet nevertheless, wee are not a little jealouse, that they are now at some port in India for they have lately sent out a Sloop and the small Ship that arrived from France double mann'd, which in all probabillity is gone to them.

Wee wrote you in our last that we designed to send two small Vessells of the New Companys from Metchlepatam and one from Bengall to the Neptunes Wreck, the two former were detained so long that Lascars would not Venture on them, and the latter we hear nothing off, nor have had any Letters from thence since the 19^th. May last, so hope you have ordered the Abington to their Assistance, and what else you can spare from your Parts, tho' in September last from Anjengo they give little hopes of recovering any thing considerable.

Wee send you this by the three Peons you sent to Metchlepatam, and the Duplicate of it Wee shall send Via Anjengo. We are

Here is no news yet of the four ffrench Ships that have been so long expected, tho' we have reason to suspect they are at some Port in India, by their sending from Pollichérry a sloop and a small ship as we beleive with advices to them.

Wee are disappointed of the Vessell we expected from Metchlepatam and Bengall to send to the Neptunes wreck, so hope the Generall has ordered the Abington and what other assistance he can spare to them.

Wee have not heard from Bengall since May last, All the China Ships arrived safe at Batavia and hope to hear the same of the Westmorland with you. Wee are

Our last to you was dated the 22d Augst. copy of which comes Inclosed, since which we recd yours of the 9th of past month, the 2d Instant when did hope long before this to have dispatcht to you the Assistance we promised, of which we are most unaccountable disappointed, for that the New Compas. Vessells at Maddapollam came so late out of that river that when they came to Metchlepatam no Lascars would adventure upon them hither, so that they now lye in that river till after the Monsoon is over, which we shall now deferr sending to you unless incouraged by your future Letters, and for the Bengall Vessell, which we expected the beginning of this month wee hear nothing off, nor have we from that Place since we wrote them on that subject.

Your writeing that the Ships bottom floated off, which afterwards was halled ashore by the natives, makes us very apprehensive that the Treasure and heavy goods are buryed in the sand and irrecoverable of which wee expect an Account from you in your next, if Captn. Lestly proceeded to the wreck, as you wrote us, as also whether the natives, had purchased anything considerable out of the sea.

Wee much fear that all our friends at Surat are in great troubles of which we daily expect an Account.

The Packet for the Court of Mannagers shall be forwarded by the first ship that sails from hence.

Wee here send you Packets for Surat w^ch^. pray forward by the first and safest conveyance, Remember us to Cap^tn^. Lestly, whose Letter wee have recd, & hope he will meet with good success on the Expedition he was then going.

Here is as yet no news of the four French Ships that have been so long expected, which has tired the Patience of those at Pollicherry, who have sent out a Sloop and the small Ship that arrived from France double Manned in search of them, which makes us Jealouse, that they know to what Port they are to come, thô at Present they give out they are afraid they are fallen into their enemys hands, for of certain they came out of France.

25^TH^ OCTOBER.

Just as we were dispatching the foregoing to you wee recd yours of the 30^th^ past month which gives us great hopes of saveing all or most part of the Neptunes Treasure, and those Letters from Captain Lestly gives great probabillity thereof, wee are not a little concerned at the disappointments, wee have met w^th.^ in this Affair, of which you are advised in the foregoing Letter, wee shall hasten hither the two small Vessells from Metchlepatam, as soon as they can come with tolerable security, and on their arrivall dispatch them to you with what men they can carry, and stores of all sorts you desire, and doubt not but they will be with you by the latter end of December. Our last to you was the 31^st^. August and p^mo^. September ♆ Martha copys of which comes Inclosed. The latter was in answer to severall of yours after wee had dispatcht that Ship, and in now peruseing those Letters again wee find little omitted to be answer'd.

In one of your Letters you mention of takeing in Old and New Comp^as^. Servants into the United Service, which wee think not to be farely done, till they have cleared their Accounts with their former Masters.

You write as if it was left to your Choice by the Managers to dispatch either of the Ships Tavistock or Dutchess from your Port to England, which is otherwayes in their Letter to us, who possitively direct the Dispatching of the Tavistock from hence.

Wee deferr'd from day to day dispatching of this Cosset, expecting that wee should before this heard of the arrivall of the four French Ships wee formerly advised you off, which to the great trouble of those at Pollicherry are not yet heard off, who about Six weeks since sent out a sloop and a small ship double mann'd about twenty days past in search of them, so that reasonable to conjecture that they know where they are to come, Tis most certain they departed ffrance,

and unless they are fallen into their Enemys hands, wee may be sure to hear of them at some Port in India, so hope all our ships will act w^th^. that caution and Security as to prevent any misfortune from them.

Wee did hope long ere this the Sloop wee wrote you for to send to the Neptunes wreck would have been arrived here, as also two small Vessells of the New Companys from Maddapollam, w^ch^. wee did design for that expedition, but are so unfortunate as to be frustrated in all, which as yet is undeterminable, whether 'twill be to the prejudice or advantage of the Company, for in our last Letters from Anjengo, which were dated the 9^th^. September, they write that the bottom of the ship w^th^. the working of the sea was floated off, notwithstanding the great weight that was upon it, which bottom the Natives had halled ashore, and found but Lead on it, so 'tis feared the heavy goods, with the treasure are sunck too deep in the sand to be recovered, at which time they were sending Cap^tn^. Lestly w^th^. a Monchew to the place of the wreck to prevent the Natives working on it, an Account of which wee daily expect.

They from Anjengo write us also that the troubles at Surat, were likely to swell to a greater bulk then ever, the Mogull haveing countermanded the delivery up of the security Paper, and ordered all Christians, the Armenians included, to be strictly confined to the Citty, till they paid for those two ships the Pirats took last year.

The Hugliana Ketch is not yet arrived from the West Coast, which wee suppose will fall down to your Port, if so pray hasten all our Letters hither by the first good and safe conveyance.

The Acco^t^. of the Charcole sent on board the Martha just as she was going to sail, was inclosed in a blanck, copy of which wee here send you.

Wee have no material news from any part to write you, but when any offers shall not fail to send it you.

Wee rẽcd your Consultations, and as for a seal of the United Companys, wee have none, they haveing not as yet sent any out to any of their settlements as wee know off.

Wee rẽcd. yours of the 20th. and 25th. last month, and 3d. Instant, and observe the hardships you mett with by a long passage, and at last forc'd to Vizagapatam, whence you advise you took out the Compas. Goods, and left them with Mr. Holcombe to be put on board the Humphry and Charles bound for Metchlepatam which we approve of.

Tis a great disappointment to us the not comeing of the Yatch and Fly, which we have so long expected, we well observe what you write relateing thereto, for which can lay no blame to your charge.

When you have taken an Account of the Dead Stock at Maddapollam, wee expect your account thereof as you promise.

Wee shall receive the Pallankeen of Mr. Tillard of which you advise.

Mr. Wood the former Master of the Yatch has as yet made no demand of wages, which wee take not to be due from the United Trade, when Thomas Chapman arrives here with the Yatch, wee shall see and settle his pay and adjust all matters with him, The 12 Laskars Ship't in August when rẽcd two months pay, since they refused to come up with the Vessells they ought to return the pay, or at least to have half pay dureing their lying in the River.

Wee wod. not have you refuse the New Companys Merchants Warehouse roome for their Goods, nor their Servants Accoñodation in the ffactory.

You advise the French Parr is ordered into Maddapollam River, pray if you hear of any French Ships that fall in upon the Coast near you advise hither iñediately as also to Vizagapatam, which may prevent our Shipping falling into their hands.

The Boat you sent Mr. Tillard is in Kisnapatam River, which wee have ordered hither not being able to return to you.

As soon as the Monsoon is well over wee would have you dispatch to us the Yatch and the Fly, and whereas we hear there is a new barge belonging to the New Company, wee wod. have the Yatch Tow her up, and send every thing with her that belongs to her, and if there be a necessity for it, wee wod. have all the Vessells, well Graved and cleaned, before they come out of Metchlepatam River, and pray see that they have good sails Anchors and Cables, & well caulkt, And

whereas wee have ordered Narrain to buy some Chay goods if to be got cheap, which we enjoyn you to keep a Secret, and not to impart it to any one what ever, neither White nor black, which goods when bought he is to deliver to you ready embaled, which wee order you to send up upon the Yatch if no better opportunity presents of Shipping at that time, and when you dispatch the Vessells to us, be sure you charge them not to speak with any vessell at Sea, if they can avoid it.

Wee hear there is horse furniture belonging to the New Company, which pray send us, as also Six hides for that purpose, to make Bridles Stirrups &c^{a}. hearing that the Leather in your parts is much better then what we can get here, and never fail of sending speedy advices of all news of importance, more particularly if you here, of french Ships or news from Surat, Pray dispatch imediately the Inclosed Packets to Vizagapatam.

Just as was dispatching the foregoing to you came in Letters from Anjengo, adviseing the great probabillity they had of Recovering all or most part of the Neptunes Treasure to effect which they extreamly want the two vessells at your place, w^{ch}. we at first promised them, therefore hasten them to us as soon as possible, you can, but still have regard to their security, and not hazard them if you see a prospect of foul weather, we beleive the barge if well fitted wo^{d}. be serviceable upon the wreck, but don't lett the vessells be detained for that, but send it afterwards by a Country boat that will tow her up. The President Acquainted us that in a Letter of yours to him, you much doubted, whether you should get, those Chay goods wee ordered under fifteen or Twenty ℘ Cent abatement, so being assured you'l do the best you can, we leave it wholy to you, desiring that you'l see the goods are the best of their sorts, full Lengths and breadths, well washed, sorted, and Packed, as for Sallampores and Longcloth, wee would not have you meddle with any unless it be on the terms wee formerly mentioned in our orders to you, and if the mony you carryed with you fall short one or two Thousand Pagodas of the amount of what you buy you must gett Bills upon us here, wee not being able to send it you from hence, by reason of the troubles in the way.

We have perused the List of goods already received, and what your Merchants say are upon the way comeing to you, w^{ch}. wee think very considerable, and to Incourage their going on briskly with the Investment, wee here send you on the Huglyana Ketch, Fifteen thousand Pagodas, Two thousand seven hundrd. of which comes in Bills, which are in one of the Chests wth. the money, wee have likewise sent you Packing Stuff, and some boards, Nails &c^{a}. for the Sheathing of this Vessell which arrived from the West Coast the 23^{d}. Wee know not whither the ffrench sloop is gone, but their ship is arrived at Callicutt who in her way thither took the Tibby Ketch Cap^{tn}. Weoly belonging to this Port.

Wee have paid your Bill for four hundred Pagodas to M^{r}. Hunt.

Wee will furnish you with a state horse as soon as possible.

Wee yesterday rcd a Letter from Mr. ffarmer, wch. wee here Inclose for your perusall, wherein you'l find to say no worse of it, very unmannerly expressions, threatning that if wee dont comply with his Demands, he will then think of all just ways & means, for redress, If Mr. ffarmer thought it an Injustice to him, that Mr. Games should Continue Land Customer and Scavenger of Cuddaloor, how came he to sign that Letter without any objection, wherein Mr. Games made it his request to us, for the Continuance thereof, besides wee thought that whereas wee had admitted Mr. ffarmer, upon his frequent importunitys into the Council, as lowest, he might very well have been satisfyed, with that Employ he found vacant, and lett his Superiors Choose before him, and not to have been so troublesome to sollicite that thats none of his right, and accordingly 'tis determined here that Mr. Games Continue Land Customer and Scavenger at Cuddaloor, and that Mr. ffarmer has such an employ as is vacant, and Generally officiated by one of the Council.

Wee wrote you in a former Letter the reasons of our permitting Serjeant Brannin going hence to serve in your place, but forgott to desire you to stop two Pags. a month out of his pay towards the Ssubsistance of his wife, which pray remitt by your Peons monthly.

To THOMAS HARRIS
MASTER OF SMACK RISEING SUN.

Wee have Laden considerable store of Provisions, and Amunition, on board the vessell of which you are Master, the Perticulars of which wee here deliver, so order you upon receipt of this to repair on board your smack, and receive on board Ensign Dixon and the 29 Soldiers that he'l bring with him, as also a Surgeon, Armorer, and a Smith, who as soon as putt on board, you are to weigh your Anchorr, and bend your Course for the speedyest attaining Mannacorree near Cape Comorine, where the Neptune was lost, where when arrived, you are to follow the orders of Comodore Brabourne, or such as you find there that he and his Council have appointed to Comand in Cheif, to whom you are to deliver the Amunition and Provisions from time to time as they shall require them, as also the bagg of one thousand Pagodas now delivered you.

You have been advised here of a small ffrench Ship that went from Pollicherry has taken off Zeilone a Ketch belonging to this Port and carryed her to Callicutt, who wee are apprehensive will cruse on that Coast, and it may be will come down as farr as Cape Comorine and Zeilone therfore it behoves you to be very vigilant in looking out for her, and do what possible to avoid her, and if you should be so unlucky as to meet her who has but 10 Guns and 50 Men, wee order you to Consult the Millitary on board you in makeing the best defence you can, and wee think it not amiss that if you fall in wth. Gally or Collumbo to send, and can do it without loss of time, to send your boat ashore, to Enquire what news, and that you may have the Assistance of the Govr. of either place, wee here deliver you a Letter to send ashore to them, Ensign Dixon has the Command of the Soldiers, so wee have given him a List of the Provisions and Amunition, that is on board you who wee have charged to keep an accot. of the Expence thereof, dureing your passage thither, so that you must permitt him to take what Provisions he thinks necessary for his men, and you to order your Lascars to Rumage for the same, as he shall require.

Wee have for this Expedition mounted on you Six Guns, and accordingly stowed you with Powder and shott, as also wth. Ropes, blocks and other necessarys, that wee judge may be wanting for service on the wreck, all which as well as any thing else you have, must be sent ashore, or delivered to the ordere of him that Comands in Cheif at the wreck whose directions you are to observe in every perticular, and whereas you have store of Powder on board you, you must be very carefull that no misfortune happens thereby, wee therefore order that you never go into the Hold, or where any Powder is, with a Candle but in a very good Lanthorne.

You are to make all imaginable conveniency on board your vessell, for the well Lodging of the Soldiers, which will Contribute very much to their health, and 'tis ordered that the Ensign keeps them under a good decorum to prevent all disputes and disturbances.

Tis of great concern to the Companys Affairs, your speedy arrivall at the wreck which wee hope your Dilligence and abillity will effect, so wish you a prosperous Voyage, and Date these in Fort S^{t}. George this p^{mo}. Dec^{r}. 1704.

Our last to you was the 24^th^. and 25^th^. past month, copy of which comes Inclosed, since which have rec̃d none from you.

The Smack Riseing Sun arrived not here from Bengall till the 23^d^. Instant, and the Maddapollam Yatch and ffly arrived not here till the 25^th^. all came Loaden which took up some time to Land, and fitt the Vessells for this Expedition, for all stores here were ready some time since.

Wee send you Fifty men upon the three vessells as ℔ List Inclosed, who are commanded by Patrick Dixon and Francis Hugonin, who are made Ensigns *pro hac vice*, directed in their Comissions to follow your orders, or such as you shall appoint to Comand in Cheif at the wreck. They are very good officers and doubt not, but if you come to action, that they will answer the end for which they were sent.

Wee here likewise Inclose to you a Copy of the Gov^rs^. Commissions to the Officers, and a List of all Amunition and Stores on board the severall Vessells, as also a copy of the Masters Dispatch's, with an Inventory of each vessells stores that so you may know where to send for every thing. Wee have also sent you 1500 Pagodas to defray what necessary charges shall attend this Affair, not questioning but you will husband all to the best advantage, and use your utmost endeavours in what wee heartily wish, in saveing the Treasure, for otherways this great expence will be a considerable addition to that heavy Loss, and in hopes of being successfull, wee must not omitt in giveing orders, how to secure what may be found of the wreck. Wee doubt not but long since you have heard of the ffrench Ship thats arrived at Callicutt, who left this Coast the beginning of October, who took off Ceylone a Ketch belonging to this Port George W[e]oly Master, which Ship wee are Credibly informed is to return again to Pollicherry, so that you must be cautious when to order the return of these Vessells, more particularly that that is to come about Ceylone, Therefore wee think 'twill not be amiss, you keep the Smack with you, till wee advise the sending of her, upon which wee would have you send us the Treasure you save, unless a Ship of better force should present bound to this Port, to strengthen which you may send the Soldiers on board of her, Till the vessells arrive with you, wee have ordered the two Ensigns, to take great care of the Provisions and Amunition, to see nothing be embezled, and keep an account of the Expence of the former.

When the time is over that there is nothing more to be done upon the Wreck, wee do desire and enjoyn you to return us every man, for wee can spare none of them from this Garrison, but for any thing of the stores if you have

occasion you may detain them, and wee shall charge you with them, and if the ffly can be of any service to the Company, you may keep her.

Wee have advanced the Masters and Lascars, three months pay, and to the Ensigns & Soldiers two months, the Particulars of which as ℔ Paymasters List Inclosed.

Wee dispatcht your Peons hence in Octobr. who wee fear were tedious in their Passage to you by reason of the Excessive great rains, Wee hope these Vessells will sail to day, and few days will send you copys overland, of all what wee now write, when shall give full answer to your Letter. Wee are
